

Teacher notes and answers

Choosing a school sustainability option | LAUNCH_SU1_W03 | STAFF ONLY

Lesson alignment

Outcome: Make a reasoned geographical decision.

Evidence: F: reasoned decision and two exit questions.

Teaching: Compare two or three options using environmental, social and practical criteria. Discuss trade-offs; independently choose an option and justify it with evidence, noting a possible disadvantage.

Preparation

Prepare the cards, organiser and one task route. Model the four steps before independent work. Use the supplied source record and distinguish real evidence from authored scenarios. The teacher supplies the school's copy of No One Is Too Small by Greta Thunberg; no extract or quotation is included. Use the paper-reuse and cool-space scenarios. State that all local details are assumptions; accept different justified choices and overlap between criteria.

Offer a calm start, an agreed pause and a private response option. Accept speech, pointing, typing or writing. Invite reasoned disagreement without personal or family disclosure.

Exact unit wording

Scheme of work: LAUNCH Summer 1

Unit

Resources climate and sustainability

Enquiry

How can we make a justified decision about sustainability?

Success criteria

I can interpret resource and climate evidence, evaluate responses, compare options against criteria and justify a practical decision.

Vocabulary

resource, sustainability, climate change, mitigation, adaptation, cause, effect, response, evidence, provenance, usefulness, decision, criteria

Resources

Climate and sustainability data; selected No One Is Too Small extracts by Thunberg; online data sets; curated sources; highlighters; prepared tables; spreadsheet or graph paper; planning frame; presentation device; glossary.

Access and challenge

Pre-teach terminology and model evidence use. Chunk sources and data; provide an initial frame, then reduce it. Maintain normal access arrangements. Extend by weighing limitations, alternative explanations and evidence quality. Adults support access and evidence selection without supplying answers. Use labelled examples and a reduced data set before the full task.

Teaching sequence

Nine stages totalling forty minutes

Stage	Min	Focus
Opening	0	State the enquiry and goal.
Arrival	4	Use supplied reminders and chosen route.
Starter	3	Use vocabulary in context.
I do	6	Model four steps before independent work.
We do	7	Operate the shared activity; explain choices.
Check	2	Check a claim against evidence.
Independent	12	Fade content prompts, retain access support.
Review	3	Check and improve one detail.
Exit	3	Hear two individual responses.

Worked model

Question: Which criterion fits checking access to the proposed cool space?

Evidence: Option B requires an accessible space and adult assessment.

Explain: Access fits Social; getting permission also raises a Practical issue.

Check: My preferred option still needs a disadvantage and a stated priority.

Arrival answers

Staff only

Supported

1. Using spare sheets before taking new ones.
2. Whether the proposed space is accessible.
3. Adult assessment and permission.
4. No. Different priorities may support different justified choices.

Standard

1. Gaining a benefit while accepting a disadvantage.
2. Social.
3. They are authored scenarios with stated assumptions.
4. Evidence, a priority, a disadvantage and a next check.

Stretch

1. Yes. Explain which aspect makes each category relevant.
2. Different weights could favour a different option.
3. An assumption is supplied for reasoning and has not been measured locally.
4. It tests how a different priority or limitation could affect the decision.

Checks and assessment

Retain the learner's own response and support record

Gaining a benefit while accepting a disadvantage.

Access fits Social; getting permission also raises a Practical issue.

Option A uses spare sheets before new ones | Environmental | This concerns resource use; the benefit is an intention, not a measured saving.

Option B must be accessible to users | Social | This concerns who can use the proposed space.

Option B needs adult assessment and permission | Practical | This concerns whether the proposal can be carried out.

Accept accurate pointing, speech, drawing, typing or writing. Require a named detail and reason where asked. Do not treat a copied model as an independent response.

Record the learner's own reasoning and support used. Keep the conclusion individual and use the exit to plan one next step.

Sources and evidence record

Keep with the teacher copy

Evidence and factual claim record: ../../Sources_and_checks.html#w03

Exact unit scheme and access text: ../../Sources_and_checks.html#sow

Authored scenarios and limits: ../../Sources_and_checks.html#authored

Full claims, URLs, access dates and reading results: root Sources_and_checks.html. New pictures are authored teaching diagrams. The teacher supplies the school's copy of No One Is Too Small by Greta Thunberg. This pack includes no quotation or extract.

Preparation and source checks

Learner's own response and selected evidence

Access support / content prompts / adult note

Accuracy check and next step

Lesson vocabulary

Use these definitions with the lesson and knowledge organiser.

environmental — Concerning resources and the natural environment

social — Concerning people and access

practical — Concerning how an action can be carried out

trade-off — A benefit gained alongside a disadvantage
