# Staff answers and cover notes

### Exact outcome

Stay safe online; recognise risks and my digital footprint (Safer Internet Day).

All cases are invented and offline. Accept other safe, reasoned answers. No personal accounts are needed.

### Privacy

A choice about who can see personal information. Share less and check who can see it.

### Digital footprint

The trace from things a person does or shares online. Other people may copy or share a post. Deleting it may not remove all copies.

### Consent

Clear permission. Ask before sharing a photo or details about another person. If they do not agree, do not post it.

### Kindness

Use respectful words. Do not join in, forward or add to an unkind reply. A person can get help without replying.

### Report and block

Tools that can flag a problem or limit contact. A trusted adult can help use them. Help is still valid if tools are unclear or do not work.

### Starter and model A

Keep routine details private. In A, a routine note and another learner in the photo create risks. Remove the detail and do not post the other learner without consent. Kind comments can stay about the work. Settings can limit viewers; they cannot guarantee control of copies. Do not imply consent solves every privacy risk.

### Guided work

Match removing routine details to sharing less personal information. Improve Private means no one can copy it: settings can limit an audience, but copies may still be made. The learner should think before posting and ask an adult if unsure.

### Main and parallel hinge

Main B. A confuses settings with consent. C spreads the content. D claims deletion removes all copies. If unclear, re-model A and repeat privately. Parallel A: stop replying and get trusted adult help with report or block tools. A pass is unobserved.

# Two choices with equal checks

### Choice 1 Map for B

Risk: another learner has not agreed to be in a shared photo. An unkind reply could spread if joined in or sent on. Do not post that photo without consent; use a version with no other person or private details instead. Copies may remain once shared. Use kind words about the card tower. Stop replying to a concerning message and ask a trusted adult in private for help to report or block it. This reduces further sharing and gets adult support.

### Choice 2 Advice note for C

A possible note: Leave the routine details out of the group note. A post can be copied, which adds to a digital footprint. Use kind words and do not join in or send on the unkind reply. If it causes concern, stop replying and ask school staff in private for help with report or block tools. This keeps more details private and helps limit the spread. Accept a shorter response with all checks in the pupil usual mode.

### Equal demand

Both choices spot a risk, explain a footprint or copy limit, and give a kind safer step with a reason and private help. A map needs no art skill; a note needs no extra words. Reading, typing, aids and an exact scribe do not supply the pupil thinking. Log adult content prompts.

### Supported

Choose either task. Read one part at a time. Keep the word bank, A model and starters. Offer two safe steps if needed. Record adult answer cues apart from usual access.

### Independent

Choose either task. Spot a risk, explain copies and the footprint, give a kind safer step with a reason, and add private help. Normal aids and the visible model stay.

### Aspire

Choose either task. Explain a limit of a setting or deletion. Adapt the response if the first adult is busy or a report tool is unclear. No extra disclosure or public talk.

### Review and exit

Improve Just delete it and it is gone: copies may remain, so get adult help and do not send it on. Exit can explain a safer step from a story or correct the privacy myth. Do not grade a personal pledge or ask pupils to prove settings on an account.

# Access evidence and safe support

## Judgement

Judge story risk knowledge and the safe response apart. Secure work links a case risk, footprint or copy limit, a kind feasible step and its reason, and a help route. Keep partial work. Silence or pass is unobserved. No claim that this lesson proves safe habits or stops harm.

## Typed and scribed routes

Books are the first route. Type instead on Evidence Sheet page 2 works for either choice. Point, draw, use an aid or use an exact scribe. Read back quietly and allow correction. Keep usual reading and language aids. Plan in any language. No public questioning.

## Private pledge

The pledge is private and stays with the learner. Do not collect, photograph, display or compare it. Use a fictional pledge, leave it blank or pass. No names, account details or personal story are needed. A pledge is not a safety guarantee. Do not blame a pupil if harm occurs. A fictional pledge can show the same learning.

## Feedback

Retain first thinking, one next step and the learner reply in their own colour or usual mode. VF verbal feedback; WS worked with support; I independent; // self edit; ? read back; E actual work saved. R only after Voice, Audience, one NS and reply. Offer to the Communication portfolio. Staff confirm any mapping.

## Private help

Ask a trusted adult or school staff in private. Point to HELP, write a request or say Can we talk in private. If one adult is busy or help is not enough, use the route to another. Staff can help use report and block tools. A suitable helpline is another type of support; staff can help find the right route. No personal account is needed in this lesson.

## Discreet step out

Pre agree a discreet pause signal and a known supervised route before the lesson. Staff acknowledge the signal without a public reason. Use the agreed adult support and place. Offer a calm task, a supported return or a private catch up. A learner does not leave alone.

## Staff response

Any disclosure goes to the safeguarding lead through the school procedure. Listen calmly. Do not probe or promise secrecy. Keep concerns out of shared work and learning records. For an urgent concern, get on site staff help at once.

## Content recording

No live accounts, real posts or unkind wording are used. Do not ask pupils to open, save, screenshot, copy or forward concerning content. Staff follow school procedures to record and report it. Do not promise that blocking or reporting always resolves it; support can continue.

## Source and scope

GROW Weekly - Spring B67 and C67. Exact scheme outcome checked. Owner supplies the date, period and group. This is a formative lesson. Current official school online safety teaching guidance supports privacy, safe conduct and reporting routes. Source descriptions are in the pack facts record. This lesson covers the stated focus, not every online risk. Only Week 4 is authored.
