Exit.	3.
Total.	40.

Print list.

Print one tier pack per pupil, one Pupil Resources master, one Word Page and Knowledge Organiser per pupil who needs them, and one TA Brief per supporting adult.

Keep one Staff Answers and one Teacher and Cover Plan with the teacher. Answers are also in Teacher answers in this plan.

Green · Ready, Amber · Help, Red · Pause.

Return to learning: quiet pause, usual aid, one short task, then rejoin at the current step.

Catch-up · Match Claim A and Claim D to their clues with an adult. Join at card A.

At check-out, record E for — against the pupil's target.

Made by Matt

TA Brief.

Starter question 1 revisits last week.

Green · Ready, Amber · Help, Red · Pause.

Return to learning: quiet pause, usual aid, one short task, then rejoin at the current step.

At check-out, record E for — against the pupil's target.

Exit pupil voice.

What helped you most today, or what would you change next time?

Point, speak, sign, draw, write or choose. You may pass.

Read or scribe the pupil’s own words. Record actual support and one work reference.

Guidance.

Use models and fictional examples only. Keep all reflection focused on classroom science tasks. You may pass.

Formative practice. Record actual actions, support and gaps.

Accept the pupil’s own example or a pass. Record their own words and actual support.

Made by Matt

Preparation and safety.

Set out the six claim-and-clue cards, model pictures, and rock test summary tables.

Use models and fictional examples only. Keep all reflection focused on classroom science tasks. You may pass.

P17 · SLT planning and evaluation.

Use models and fair rock results to back up science claims and name a next step.

Embedded catch-up.

Match Claim A and Claim D to their clues with an adult. Join at card A.

What needs re-teaching.

What changed after feedback.

Made by Matt

P18 · Individual target opportunities.

Opportunity.	Observe.
Communication.	Explains or directs a response.
Reasoning.	Links a fact to a choice or check.
Self-regulation.	Chooses an aid or a pause.

Pupil ID.

Individual target.

Actual response and support.

Adult deployment and responsive feedback.

The teacher models the task. The supporting adult reads, steadies or scribes as agreed. Keep the choice with the pupil.

Optional. Respond to feedback with an adult. You may pass.

Mark R only after the pupil has responded to feedback with an adult.

Offer one specific next step. Hear or read the pupil response. Reply and adapt the next cue when needed.

Teaching script 1.

Arrival · 4 min.

Invite a private regulation check. Green · Ready, Amber · Help, Red · Pause. Return to learning: quiet pause, usual aid, one short task, then rejoin at the current step. Offer a quiet start, usual aid or pass. Use the cue and accept the pupil’s usual communication mode.

Starter · 3 min.

Starter question 1 revisits last week. Take one minute for recall and reveal. Name one job that bones do in the body. Cue: Support · protect · move. Expected: Bones support the body, protect organs, and help movement at joints. Then ask: A claim says chalk is bad for a roof. What water check backs up that claim? Expected: A water drop soaks straight into chalk instead of staying on top. Pick one body or food claim and one rock claim to prove.

Teaching script 2.

I do · 5 min.

Back up a claim with a clue. Read the claim. Name the model or test clue. Say why that clue proves the claim. Claim: Granite is better than chalk for steps. Clue: Granite got no scratch mark, while chalk crumbled. That proves granite is harder. Use two clues for a stronger answer. Check that any rock test was fair. Pick one thing you did well this term.

We do · 8 min.

Which clue proves that two muscles work at an elbow joint? Ask for a choice and a reason before revealing. A. One band pulls to bend and one pulls to straighten. A muscle can only pull, not push. How do both the mark test and the water test prove that slate suits a roof?

Teaching script 3.

You do · 13 min.

Record the pupil's own words linking a claim to an observed clue, plus their chosen next step. In your book, choose two claim cards. Write the clue that backs up each claim. Write one thing you can do well now. Supported route. Match two claims to clues. Tick one thing you did well. Independent route. Write clues for two claims. Name one next step. Aspire challenge: Prove three claims across topics. Explain how fairness helps proof. Choice route. Pick a route and mode. Show two proven claims.

Teaching script 4.

Review · 4 min.

Check your proof. Did you name what you saw in the model or test? Optional. Respond to feedback with an adult. You may pass. Mark R only after the pupil has responded to feedback with an adult. Keep the first response and any change separate. Edit in the same colour, on the same page or usual mode.

Exit · 3 min.

Ask the two route checks. What helped you most today, or what would you change next time? Point, speak, sign, draw, write or choose. You may pass. Accept the pupil’s own example or a pass. Record their own words and actual support. At check-out, record E for — against the pupil's target.

Teacher answers.

Starter · all routes.

1. Name one job that bones do in the body.

Cue · Support · protect · move.

Answer 1 · Bones support the body, protect organs, and help movement at joints.

2. A claim says chalk is bad for a roof. What water check backs up that claim?

Answer 2 · A water drop soaks straight into chalk instead of staying on top.

We do decision reveal.

A. One band pulls to bend and one pulls to straighten. A muscle can only pull, not push.

Card answers and next steps.

Card.	Answer and next step.
A.	Clue · Rigid model bars surround the chest space.
B.	Clue · Top band pulls to bend; bottom band straightens.
C.	Clue · Plate card includes grains, fruit, veg, and beans.
D.	Clue · Water stays on slate but soaks into chalk.
E.	Clue · People melt natural sand to make solid glass.
F.	Clue · Only the rock changes when drops match.

Made by Matt

Mark scheme.

Today I can.

- I can back up a body claim.
- I can back up a rock claim.
- I can name one next step.

Route.	Accept at Exit.
Supported.	Points to the elastic strip model for the joint and the water drop on slate for the roof.
Independent.	States that one muscle bends and one straightens, and granite did not scratch in the mark test.
Aspire challenge: choose.	Explains that an unfair test cannot prove which rock property caused the result.
Choice.	Shows one valid claim with supporting evidence and one reflection in the chosen mode.

Pupil voice accepted answer.

What feedback did you get, and what did you change?

“The adult asked for a test clue. I added that granite got no scratch.”

What helped you most today, or what would you change next time?

Accept the pupil’s own example or a pass. Record their own words and actual support.

Completed claim-and-clue summary across skeletons, food, and rocks.
