Staff answers and teaching notes

Exact lesson outcome

I can ask a prepared question and record whether the option could suit me.

What counts

A prepared question must come from the learner's choice or construction and be asked through their usual communication mode. Adult voicing of a selected card is valid aided asking; record it. Keep the actual answer or unknown, a feature heard and yes/maybe/no reflection. Preferences are not graded. No compulsory personal explanation.

Model and hinge keys

Model A: support question matches word card, break and step help. Main B: unknown travel stays unknown, with help to check. Parallel A: ask again about unclear entry details and note the unknown. Re-model fact versus guess, then recheck privately. A pass is unobserved.

Question topics

Course content, entry, support, travel and progression are all valid. A prepared question about any one topic meets the core asking task. A relevant follow-up can deepen it. Do not require all five questions from each learner or rush five public performances.

Real or practice answers

Use actual visitor answers for a real encounter. The fallback script facts apply only to the labelled role-play. Unknown facts must not be invented. Generalise any provider/person/place names in shared notes to category wording. The typed template stays blank; no supplied model answer is counted as learner evidence.

Provider words

FE is further education, ITP independent training provider. The categories may overlap in real provision; record the category given rather than forcing a false distinction. Technical education is learning for a type of work. Progression means a possible next step, not a guaranteed place or job.

Fallback answers and feedback

Script A college type

Content: short lessons and guided practical tasks. Entry: discuss current skills and check course needs; no promised place. Support: word card, short break or step help. Travel: no place/journey set; check with a trusted adult. Progression: another course or training, with entry checks. Exact script replies are on Card 2.

Script B training type

Content: work skills in a small group and guided tasks; no paid job offered by this card. Entry: discuss starting skills and training needs; no promised place. Support: task list, model or reading help. Travel: no real journey; check route/time/help. Progression: more training or a job with training, with entry checks. Exact replies on Card 3.

Responsive role play

Staff choose a script, introduce it as invented and wait for the learner’s question. Answer its topic, then offer the listed clarification and allow a response or pass. If a question is outside the card, say the fact is not available and record a next check. Reading a script at learners without their question is not evidence of asking. Rehearsal and aids remain available.

Suitability reflection

Yes, maybe and no are equally valid. In the model, maybe is linked to word-card help and unknown travel. A learner may choose any option and keep a reason private. Ask them to identify one neutral feature heard; do not ask for diagnoses, grades, addresses or finances. Record a pass or missing reflection honestly, never choose on their behalf.

Useful next step

One NS can sharpen a vague question, retain the actual answer, distinguish unknown from guessed, or name a feature. Keep first response and reply. Do not turn a tentative preference into a commitment or an eligibility judgement.

Evidence and safe delivery

Assessment and dates

Exact evidence: Provider encounter record and suitability reflection. Source N20 F + S retained as mixed evidence role; Week 6 assesses the term. Record actual date, mode, category, question, answer, feature, yes/maybe/no, optional reason, unknowns, access, content supplied, NS/reply. A later real encounter requires its own date and record. Preparation alone is not completed encounter evidence.

School arranged encounter

School owns the real encounter arrangements, duration, access and separate entitlement/timing checks. This lesson or staff role-play does not establish compliance or completion. If the visitor is elsewhere or later, prepare now and record actual answers and reflection when it occurs. A practice record is labelled staff role-play, never visitor attended.

Typed and scribed route

Evidence Sheet page 2 works for either question choice and every mode. Keep names out. Exact scribe reads back and allows correction. Save with usual routine, lesson code/work reference; share privately. No real booking or application is made.

Feedback and portfolio

E actual evidence banked; R after Voice, Audience, NS and reply. Add record to Careers Portfolio and offer to Communication portfolio. Staff confirm any accredited mapping. Missing or partial evidence remains visible; no invented answers or attendance.

Private help and boundaries

Trusted adult or school’s help route; point to HELP, write or ask privately. Pass and supported pause/return remain available. No public questioning or personal records. Listen calmly, avoid probing or secrecy promises and follow usual procedures; keep concerns out of shared evidence.

Source and queue

BUILD Careers physical row 20 / Spring 1 row 5. Tuesday 2 February 2027 P3, up to five learners. Forty-minute split adapts I20 encounter window. Next BUILD Week 6, My route map — Plan A and Plan B, assessing; then previously queued LAUNCH Careers Week 1. Further GROW Careers paused. Only Week 5 authored.
