

Food Groups

Today: sort ingredients, unpack a wrap and plan a snack.

You can point, move cards, draw or speak. An adult can write your words.

Which ingredient word can you recognise: bread, apple or yoghurt?

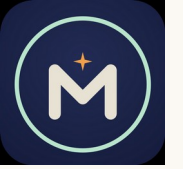

Words that help

INGREDIENT

One of the foods used to make a dish.

FOOD GROUP

A way of putting similar foods together in the Eatwell Guide.

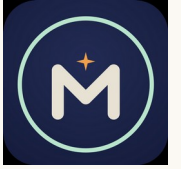

Five group names

Fruit and vegetables; starchy foods; protein foods.

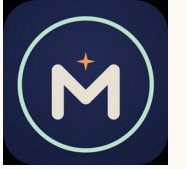

Dairy and alternatives; oils and spreads.

Use the examples on your group mat. Water belongs beside the mat as a drink.

Five group names — continued

Point to the group for bread.

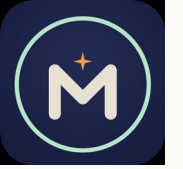

Watch me sort

I read the ingredient: potato.

I check the examples: potato belongs with starchy foods.

I place the card and explain my choice.

Where does a carrot go?

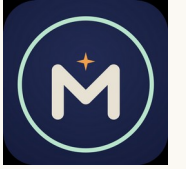

Your turn: sort eight cards

Bread, rice, apple, carrot, lentils, egg, milk, sunflower oil.

Place each word on the group mat.

Partners take turns: one places, one checks. Swap after four cards.

Which two cards belong in the protein group?

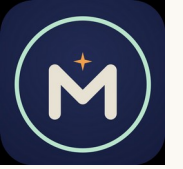

A wrap contains several ingredients

This pretend wrap contains: bread wrap, chickpeas, lettuce and yoghurt.

Read each ingredient separately.

One dish can contain several food groups.

Which ingredient goes with dairy and alternatives?

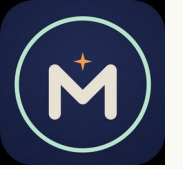

Unpack the wrap

Match the four wrap ingredients to their groups.

Point to two groups that share the same dish.

Say or complete: “The wrap includes ____ and ____.”

Does the whole wrap have to go in one group?

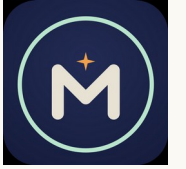

A pretend snack shop

Kai has 100p. Roll 50p; apple 30p; yoghurt 40p.

Choose two items from different groups. Add their prices.

One partner chooses. One checks the total. Then swap roles.

Can Kai choose the roll and yoghurt for 100p?

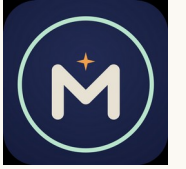

Show the thinking

Name one correct group match.

Show two groups inside the pretend wrap.

Check the snack total is 100p or less.

Kai chooses an apple and yoghurt. What is the total?

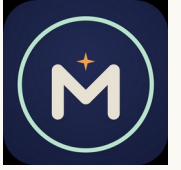

One food, one group

Choose bread, carrot or milk.

Name or point to its food group.

Return cards and leave the table ready for the next group.

One food, one group — continued

Which group contains milk? Can a sandwich contain more than one group?
