

Job, experience and role cards

Lesson 1 · What is a career? My journey so far

Cut or point. Sort under job / learning or activity / other life role. Overlap needs a reason.

Electrician - installs or repairs electrical systems.

Café worker - prepares or serves items as part of a work role.

College course - a planned programme of learning.

Learning a design program - practising a new tool.

Friend - a relationship with another person.

Club organiser - organises meetings; the card does not state whether the role is paid.

Casey's journey card

Lesson 1 · What is a career? My journey so far

This is a fictional learning example, not a real career prediction.

Past: Casey drew maps for a classroom display and enjoyed choosing symbols.

Now: Casey practises making a clear sign in a design program.

Future: Casey is curious about signs and maps but has not chosen a job.

Casey could ask: "What does someone who designs public signs actually do?"

Teacher answers are in the [separate guide](#).

Strength bank

Lesson 2 · My strengths

Use words or point; no strength belongs to one kind of person.

Reliable - follows through or communicates a change.

Organised - keeps track of tasks or materials.

Creative - develops ideas or tries a new approach.

Patient - gives a task or person time.

Practical - uses hands-on methods to make or solve.

Helpful - offers useful support without taking over.

Careful - checks detail or safe steps.

Persistent - tries again or uses support after difficulty.

Rowan's display project

Lesson 2 · My strengths

Use this complete fictional case if you prefer not to write about yourself.

Rowan sorted six project cards into two groups.

Rowan checked that each label matched its card.

The first layout did not fit the display space.

Rowan used the teacher's grid and rearranged the cards successfully.

Preference choice cards

Lesson 3 · My interests and working preferences

Use one pair at a time. Both and not sure yet are valid.

Indoors / outdoors / mix / unsure.

Working with people / independently / mix / unsure.

Hands-on / desk and computer / mix / unsure.

Routine / variety / mix / unsure.

Calmer / busier / mix / unsure.

Predictable hours / changing hours / mix / unsure.

Sam's interests case

Lesson 3 · My interests and working preferences

Fictional case for evidence-based choices.

Sam likes drawing maps and solving small problems in a design program.

Sam explained one program tool to a classmate and enjoyed helping.

A noisy room makes concentration harder. Written steps help Sam begin.

Sam is happy at a computer for part of a lesson.

No information is given about outdoor work, shifts, pay or preferred group size.

Alex's workplace comparison

Lesson 4 · Values, belonging and the workplace

Fictional places. Discuss treatment using the words on the card; no personal experience is required.

Alex enjoys practical work and works well with clear instructions and calm feedback.

Place A shows the task, gives written steps, identifies a helper and welcomes questions.

Place B says "You should know", gives no clear instructions and mocks questions or mistakes.

Alex has not yet tried either place. The comparison is based only on the information given.

Teacher answers are in the [separate guide](#).

Conditions and actions cards

Lesson 4 · Values, belonging and the workplace

Match a condition to an action. More than one action can support the same condition.

Clear instructions - show the task and provide a short step list.

Support - name a person who can answer a question.

Respect - give feedback calmly and avoid humiliation.

Inclusion - make a contribution possible in different ways.

Routine - explain the day's sequence in advance where possible.

Variety - include different task types when appropriate.

Sam's display-project evidence

Lesson 5 · Skills I already use

Fictional case. Read exactly what happened before choosing a skill.

Sam checked the list of card, tape and labels before starting.

Sam agreed with a classmate who would measure and who would arrange the cards.

Sam explained the agreed layout to the group.

One item was missing. Sam asked staff about a safe alternative.

Sam wrote the title on paper. The case does not describe a digital tool.

Five skill cards

Lesson 5 · Skills I already use

Keep the skill separate from the activity.

Communication - explain, listen, ask or use an agreed communication aid.

Teamwork - share roles and contribute to a joint aim.

Problem-solving - notice a problem and try a suitable response.

Organisation - plan steps and keep track of resources.

Digital - use a device or software for a purposeful task.

Fictional career examples

Lesson 6 · Jobs for people like me - challenging stereotypes

These invented people are learning cases, not real biographies or guarantees of employment.

Noor: trainee technician; enjoys fault-finding, practises safe checks, uses a wheelchair and an accessible bench. A tutor checks each new task.

Elliot: interested in care work; communicates calmly and checks whether another person wants help. Elliot is male.

Jules: quiet during whole-class talk; contributes written plans and listens carefully in a small project team.

For all three, the exact job, training and access needs still need investigation.

Teacher answers are in the [separate guide](#).

Statement sort

Lesson 6 · Jobs for people like me - challenging stereotypes

Classify the words, not the worth of any person.

A repair task needs careful checking.

Only men can work with tools.

A care task needs safe, respectful communication.

Quiet people cannot contribute to a team.

Some tasks require specific training before independent work.

A person's background tells us whether they will be reliable.

[Teacher answers are in the separate guide.](#)

Sam's complete profile evidence

Lesson 7 · My vocational profile

Use if earlier work is missing or a fictional alternative is preferred.

Sam planned ingredients for a classroom food project using a checklist.

Sam followed clear steps to build a small card model.

After feedback, Sam changed the model so its parts fitted.

Sam enjoys practical making, food tasks and seeing a finished result.

Written steps and time to ask a question help Sam begin and continue.

Sam is curious about catering and practical design but has not investigated routes or real working days.

Teacher answers are in the [separate guide](#).

Profile and first-target checklist

Lesson 7 · My vocational profile

Use to review the work, not to judge a pupil's ambition.

Three strengths or positive capabilities.

One specific action supporting a strength.

Interests and a transferable skill.

Working conditions or support that help.

Two possible areas, with an evidence-based reason; one well-explained area is an acceptable supported starting point.

One question or small action, a helper/source and a review point.

Mark personal example or fictional case analysis.
