

Skills I already use

How can an everyday activity show a work skill?

I can match at least three things I already do to work skills such as communication, teamwork, organising or problem-solving.

Use your own safe examples or the fictional case. Share only what you choose.

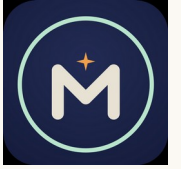

Words that help

TRANSFERABLE

Useful in more than one task or place.

COMMUNICATION

Sharing and understanding information.

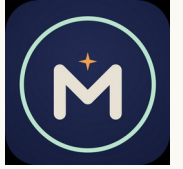

Start here

A person explains a game's rules clearly. Which skill is shown?

Can that skill help outside the game?

Choose communication / guesswork.

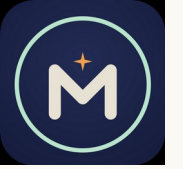

Activity → skill → evidence

Activity: the task that happened.

Skill: the useful ability within the task.

Evidence: what the person actually did.

Is “I went to ICT” enough to show digital skill?

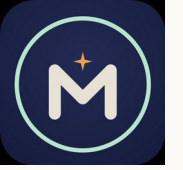

Sam's school display task

Sam checked the materials list and shared jobs.

Sam explained the plan and asked staff about a missing item.

Sam made a paper title; no digital tool is mentioned.

Which skills can we see?

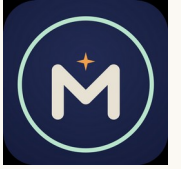

Find three links

Checked the list → organisation.

Shared jobs → teamwork.

Explained the plan → communication.

What exact action supports each link?

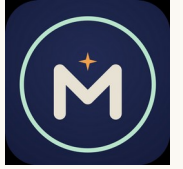

Can we claim it?

A: “Sam used software for the title.”

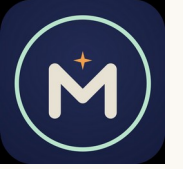

B: “Sam planned the materials.”

Which claim is supported by the case?

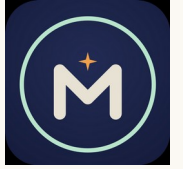

Your three tasks

1. Match the actions: Match each action to a skill from the bank.
2. Make three evidence strips: Use your own safe examples or Sam. Mark which you use.
- 3. Transfer one skill: Choose one skill and explain another task where it could help.**

Your three tasks — continued

Use the worksheet and resource cards. Work one task at a time.

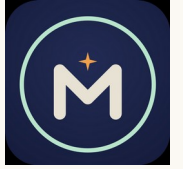

Check and improve

I can match three actions to skills.

I can point to evidence for a skill.

I can explain how one skill could help elsewhere.

Choose one part to make clearer. Which detail supports your answer?

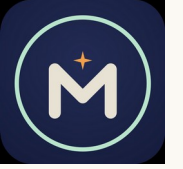

Save your evidence

Transferable-skills evidence strip.

Mark the work: my own example / fictional case analysis.

Keep one question open for your next lesson.

Which piece shows today's learning?

Exit check

Give one activity, one skill and the action that links them.

Answer using words, pointing, a sketch or a private adult conversation.
