

Transferable skills: evidence

Which actions show skills that transfer across tasks?

I can select evidence for communication, teamwork, problem-solving, organisation and digital skills.

Use your own safe examples or the fictional case. Share only what you choose.

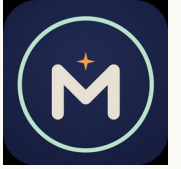

Words that help

TRANSFERABLE SKILL

An ability useful across different tasks and settings.

EMPLOYABILITY EVIDENCE

Examples of relevant abilities and actions; not proof of being ready for every job.

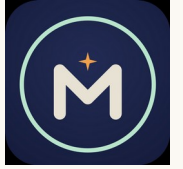

Start here

Does “I did DT” identify a transferable skill?

What could we say about the action instead?

Give one specific improvement.

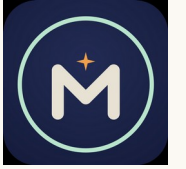

Choose evidence, not impressive labels

Communication, teamwork, problem-solving, organisation and digital skills can appear across subjects.

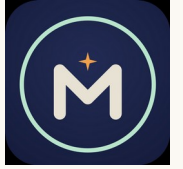

Name context and individual action; add a result only if known.

Missing evidence means a question or practice need, not proven inability.

Choose evidence, not impressive labels

Can the same activity show more than one skill?

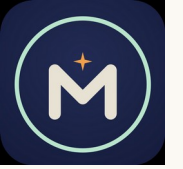

Sam's exhibition project

Sam agreed roles, checked a checklist and explained the plan.

Sam asked staff about a safe alternative for missing material.

Sam formatted a title in a document and saved it in the project folder.

Which action provides the digital evidence?

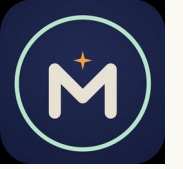

Write three evidence statements

Organisation: checked the materials list before starting.

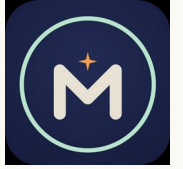

Teamwork: agreed roles with a partner and completed the agreed part.

Digital: formatted a title and saved the file in the project folder.

Write three evidence statements — continued

How could you make one statement more precise without inventing a result?

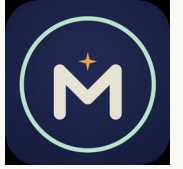

Identify a sensible development action

A: “Become perfect at technology by tomorrow.”

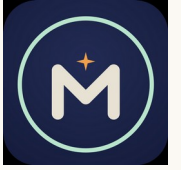

B: “Practise naming and finding one project file next ICT lesson.”

Which action is manageable and checkable?

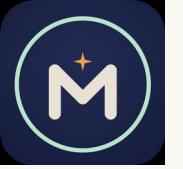

Your three tasks

1. Build a five-skill evidence bank: Use personal safe examples or Sam's full card; mark the choice.
2. Write three strong statements: Choose three rows and write context + what the person did + link to skill.
- 3. Plan one development step: Identify a skill with limited evidence or one you want to practise.**

Your three tasks — continued

Use the worksheet and resource cards. Work one task at a time.

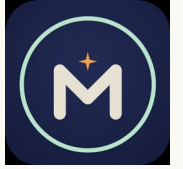

Check and improve

I can select evidence for five named skills.

I can write three specific evidence statements.

I can identify one development need and a feasible practice action.

Choose one part to make clearer. Which detail supports your answer?

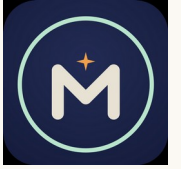

Save your evidence

Transferable-skills evidence bank.

Mark the work: my own example / fictional case analysis.

Keep one question open for your next lesson.

Which piece shows today's learning?

Exit check

Give one specific skill statement and one feasible development action.

Answer using words, pointing, a sketch or a private adult conversation.
