

Exploring career families

How can we compare career areas without treating a score as a prediction?

I can compare at least three career areas and explain which two I want to investigate further.

Words that help

CAREER FAMILY

A broad group of related roles, with differences within it.

CRITERION

A feature used to compare options.

Does enjoying games prove someone wants to design them?

Does one job describe every role in a career family?

Explain one limit.

Compare, question, shortlist

Use interests, skill evidence, values and working conditions as separate criteria.

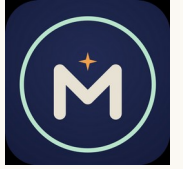

Record supported / possible / mismatch / unknown, with a reason.

A comparison helps select questions; it does not predict a perfect job.

Why should “unknown” not mean zero ability or poor fit?

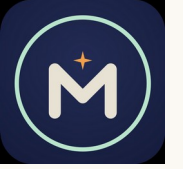

Jordan's profile

Jordan enjoys repairing models, explaining steps and solving a digital puzzle.

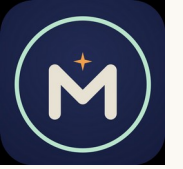

Jordan uses checklists, values helpful teams and likes visible results.

Jordan's preferences about outdoor work and shifts are unknown.

Which three families could be worth comparing?

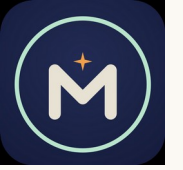

Compare three areas

Engineering: practical making is supported; exact role conditions remain unknown.

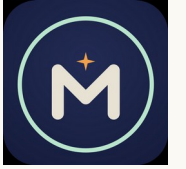

People/care: explanation and helpful teams offer clues; professional duties need investigation.

Creative/digital: puzzle interest gives a question; digital creation interest is not yet stated.

Which judgement needs the most extra evidence?

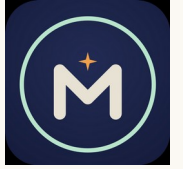

Keep uncertainty visible

A: “No shift information means poor fit.”

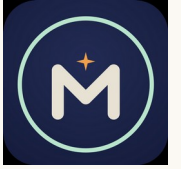

B: “Mark shifts unknown and ask what a particular role involves.”

Which is a better comparison method?

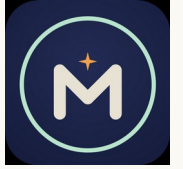

Your three tasks

1. Compare three career families: Use Jordan or your own profile and choose three from the six cards.
2. Shortlist two areas: Explain each choice using at least two criteria.
- 3. Test the shortlist: Write a question that could confirm or change each shortlisted option.**
