

Pocket blank

Print at 100% actual size. Turn off fit-to-page scaling.

Check the 50 mm line below with a ruler before using the pattern.

Cut one 100 x 170 mm blank. Dashed lines are folds, not cuts.

Practise folds first: bottom up at 100 mm; flap down at 30 mm from the top.

Use approved cold tape on the two shaded strips. Keep the opening clear.

The closed pocket is about 100 x 70 mm, including the side joins.

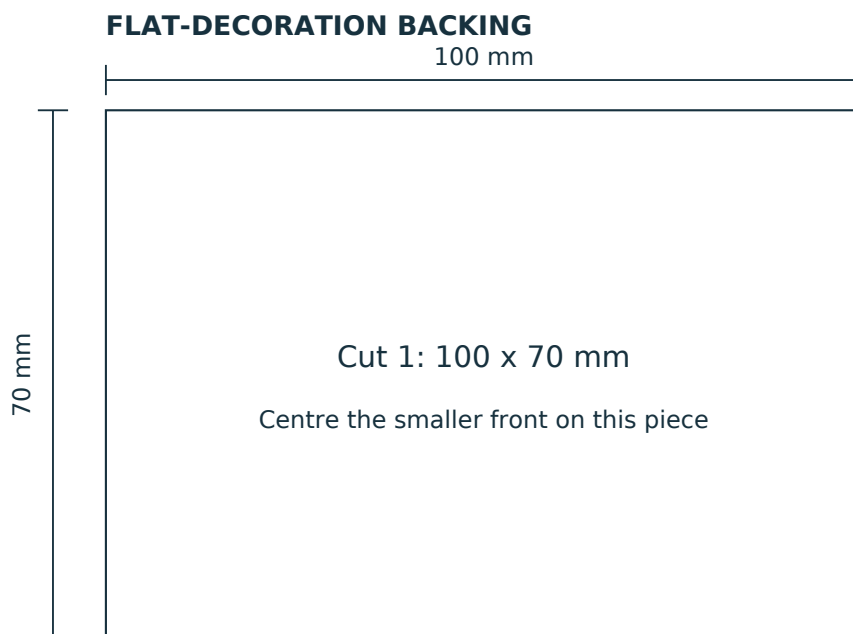

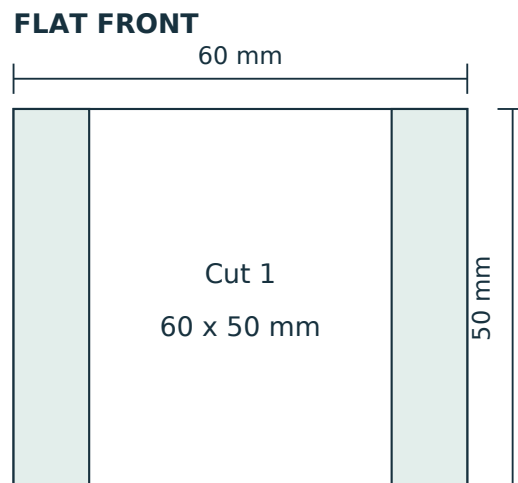

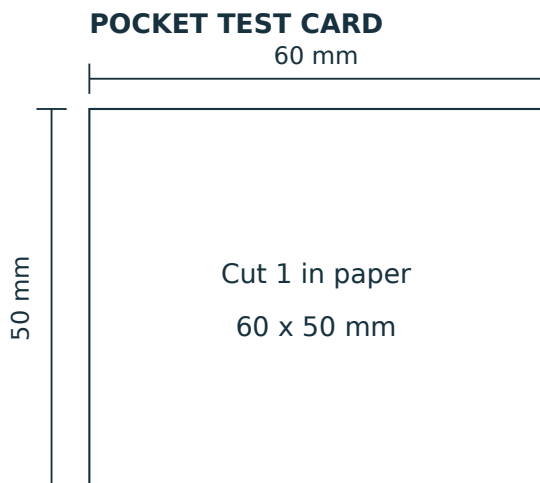

An adult may pre-cut and premark. Follow the teacher-approved making route.

Test card and optional decoration

Print at 100% actual size. Turn off fit-to-page scaling.

Check the 50 mm line below with a ruler before using the pattern.

For the pocket: use only the paper test card on this page.

For flat decoration: place the small front centrally on the backing.

This gives 20 mm side margins and 10 mm top and bottom margins.

Join at the shaded 10 x 50 mm side strips with approved cold tape.

Add a large drawn symbol. The flat decoration is not a pocket.

Use the plan and teacher checks for handling and testing the finished item.
