Find a real clue

The page is a record. The eye means look. The tick means a part that worked. The arrow means one next step.

Choose a small change and check it

Keep the real clue, the strength and one checkable next step together. These symbols give prompts, not completed answers.

Worked model

Ask the question

Watch the model: use the Lesson 1 observation to select a practical change.

Find the evidence

Specify one cue adjustment and the response you intend to observe.

Explain the link

Keep other features constant during a short quiet check where practical.

Check what we know

Evaluate the observed result, or label the action as a plan if it remains untried.

Shared investigation

Bring back a real strength note and clue from Lesson 1.

Choose one small change that follows from the real work.

Say what we will look for. Try one quiet cue check if useful.

Keep the strength, next step and check together. Record a result only if seen.

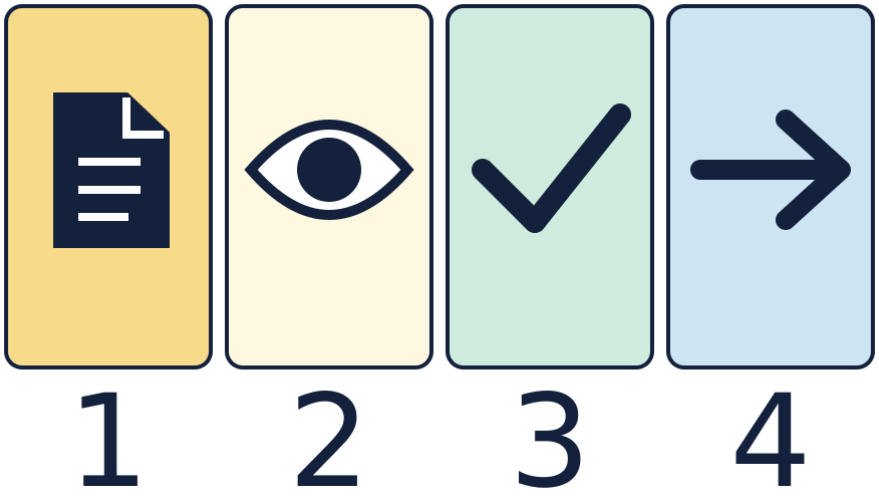

We do decision checkpoint

Which next step can we try and check?

A · Raise the cue and check who can see it.

B · Make the whole piece good.

Catch up for absence or access

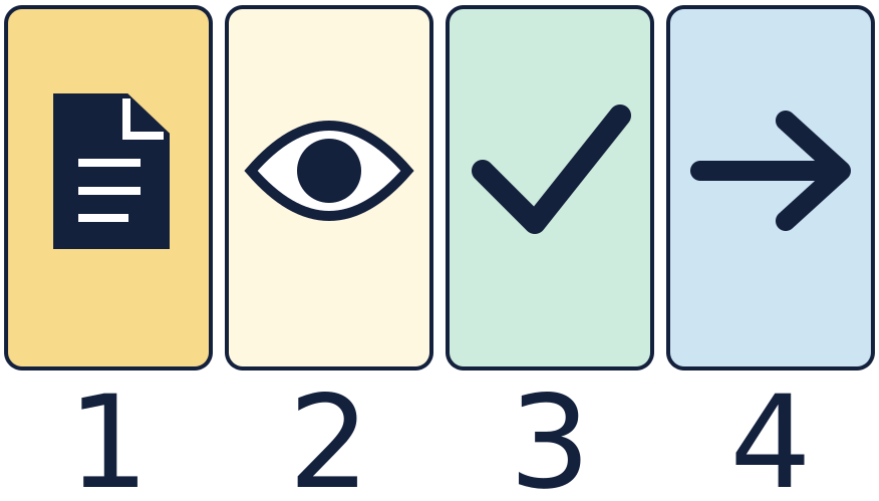

Watch the model: use the Lesson 1 observation to select a practical change.

Try the first step with the group or point through it quietly.

What can your record support, and what remains a plan?

Pupil voice

What helped you most today, or what would you change next time?
