Staff Answers

Starter recall and comparison

In Lesson 1, which real clue helped you find a strength?

Use the actual Lesson 1 strength note and source. Accept the pupil showing the link in any response mode. Do not replace a missing record with an invented answer.

What made that clue fit the strength?

It referred to the same specific visible or audible moment as the strength. Accept a real example or an accessible supported response.

We do decision checkpoint

Which next step can we try and check?

A · Raise the cue and check who can see it.

B · Make the whole piece good.

A gives one small change and one thing to check.

Release the completed review task when pupils choose A and show what will be checked. If they choose B, help them select one cue, one change and one observable result. Repeat the choice and use the parallel check before reducing support.

You have a next-step plan but have not tried it. Can you say it worked?

No. Keep it as a plan. Record a result only after an actual check.

Staff feedback

At check-out, record E for today's lesson against each pupil's target on the evidence app.

At check-out, record E for choosing a checkable next step from the real work against the pupil's target.

Regulation: check the colour-and-word card at Arrival and after You do.

Optional: show or tell an adult what you changed after feedback. You may use your usual response mode or pass.

Mark R only after the pupil has responded to the next step and an adult has received and reflected the response.

Adult ticks the improved work.

Supported answer guidance

Arrival

How many pages can you see?

One page. Accept a point, tally, sign or spoken count.

Point to the first box.

The first box contains a page or record.

Point to the last box.

The fourth box contains an arrow for a next step.

Which word fits: ready, help or pause?

Accept a private regulation choice or pass. Offer an accessible first step.

Supported exit answers

Exit ticket

How does your proposed change follow from the actual observation?

Accept a clear link between the specific observed issue, the refinement and the intended check.

What can your record support, and what remains a plan?

Accept an honest distinction between an actual checked result and a proposed action or prediction.

Pupil voice

What helped you most today, or what would you change next time?

Point, speak, sign, draw, write or choose. You may pass.
