Recall and comparison

In our last lesson, which clue helped you pick a next step?

Recall the actual Week 6 strength, observation and next-step record. Accept showing a real cue sketch, artwork or note and how it informed the next step. A proposed change is not a completed result.

What can you show if the step is not tried yet?

Show the actual plan and its intended check. Keep the result open. Accept a pass or an accessible response.

Decision checkpoint

Which link can we keep as checked?

A · The page opens to the work that fits the claim.

B · The box is ticked but the work is not found.

A can be checked. Open the page and match its detail to the claim.

Release the short personal task when the pupil chooses A and shows the matching real detail. If they choose B or cannot locate the work, model opening the correct page, then repeat the check with another item. Keep missing work as a gap.

The page opens to the wrong work. Is the link checked?

No. Find the right work and fix the link, or keep the gap open.

Staff feedback

At check-out, record E for today's lesson against each pupil's target on the evidence app.

At check-out, record E for linking a learnt skill to real arts work against the pupil's target.

Regulation: check the colour-and-word card at Arrival and after You do.

Optional: show or tell an adult what you changed after feedback. You may use your usual response mode or pass.

Mark R only after the pupil has responded to the next step and an adult has received and reflected the response.

Adult ticks the improved work.
