Teacher and Cover Plan

I can verify a link between my arts learning and an actual record.

At check-out, record E for today's lesson against each pupil's target on the evidence app.

At check-out, record E for linking a learnt skill to real arts work against the pupil's target.

Regulation: check the colour-and-word card at Arrival and after You do.

You may point to real work, draw a clue, or tell an adult what to record. A quiet share has the same value. You may pass.

Keep the work on the desk. Ask before you move shared work. Keep sound low. No solo is needed.

Practice evidence only. No completion decision, encounter, public event or completed response is pre-filled.

Invite a response. Allow thinking time. The pupil may pass.

Stage timings

Stage	Minutes
Arrival including opening	4
Starter	3
I do	10
We do shared investigation	10
We do decision checkpoint	3
You do	5
Review and improve	3
Exit ticket	2
Total	40

I do

Ask the question

Watch the model: connect an account of learning to an actual record.

Use a labelled adult model, not a completed pupil record. Display a cue sketch or an actual artwork with permission. Model an account of one learnt skill and find the specific visible detail that supports it. A feeling of enjoyment is valid, but it does not prove a learnt skill by itself.

Find the evidence

Identify the specific feature that supports the claim.

Demonstrate finding the physical page or an approved local file. Compare the detail named in the account with what the work actually shows. Include the quiet participation role. Do not assume a performance, attendance or a public audience. Give time to point, sign or choose.

Model script continued

Explain the link

Follow its locator and explain what the record can show.

Keep the example in view while modelling a brief share: name the choice, state what was learnt and point to the matching detail. Contrast this with a broad claim that has no record. Invite a response and allow a pass. Repeat the link, then fade the pointing cue.

Check what we know

Verify the matching item, or retain a clear gap and one retrieval action.

Follow a model index entry to its page. Deliberately use a mismatched locator and demonstrate correcting it only after finding the actual work. If the work is unavailable, keep an explicit gap and a practical follow-up action. Do not tick a claim merely because it sounds positive.

We do

Find a real cue sketch, art piece or practice note.

Choose one thing the work shows we learnt.

Point to the detail as we give a short account.

Find the same item from its page note or file title.

Compare a checked link with a gap. Keep each one clear.

In your book, keep the work, the link and one short note.

Use actual available work with permission. Compare a broad account with a specific account linked to a visible detail. Learners direct the shared wording or symbols. Preserve each learner's own response rather than providing a pre-filled personal achievement.

Open the actual page or file using the agreed locator. Check that the visible work supports the stated skill. Repeat with a second real item and reduce the adult cue. If none is available, use a labelled model and make retrieving the learner's record an open action.

Shared practice guidance

Include the Week 6 look-back note as a distinct record of a strength or next step. Ask what the work can and cannot show. Keep participation, making and sharing records distinct where they relate to different parts of the arts log.

Let the group check a proposed entry from start to finish: claim, supporting detail, locator and actual opening. Ask the decision question before releasing the short personal task. Use the parallel example if the group selects a tick without a record.

Decision checkpoint

Which link can we keep as checked?

A · The page opens to the work that fits the claim.

B · The box is ticked but the work is not found.

A can be checked. Open the page and match its detail to the claim.

Release the short personal task when the pupil chooses A and shows the matching real detail. If they choose B or cannot locate the work, model opening the correct page, then repeat the check with another item. Keep missing work as a gap.

The page opens to the wrong work. Is the link checked?

No. Find the right work and fix the link, or keep the gap open.

You do

Start in your book.

You may point to real work, draw a clue, or tell an adult what to record. A quiet share has the same value. You may pass.

Find one real link

Point, speak, sign, draw, write or choose. You may pass.

Choose a real piece of your work with an adult.

Point to a part you liked or a skill you learnt.

Find the page that shows it.

In your book, keep the page note and your own words.

Keep it for Lesson 2. Leave any gap open.

I learnt ___. This part shows ___.

Verify a claim and its locator

Point, speak, sign, draw, write or choose. You may pass.

Choose actual art, practice notes or a look-back record.

Explain one skill or choice using a specific feature of that work.

Open the matching item using its locator and check the detail.

Keep the checked claim, record and locator together in your book.

Identify any unverified claim or missing item. Keep it for Lesson 2.

The record supports ___ because ___. The locator is ___.

Compare the value of two records

Point, speak, sign, draw, write or choose. You may pass.

Compare two actual records supporting a claim about your learning.

Explain what each record supports and what remains uncertain.

Justify which record provides the clearer link to the specific skill.

Open both locators and distinguish verified links from gaps.

Keep a balanced account and one retrieval action for any missing record.

Compare the records. Explain why one supports the claim more clearly.

The stronger link is ___ because ___. It cannot show ___.

Choose how to show a link

Point, speak, sign, draw, write or choose. You may pass.

Choose a real item or direct an adult to it.

Point, draw or show one part you liked or learnt.

Find the matching page with help if needed.

Keep the link in your book in your usual way.

Keep it for Lesson 2. Leave any gap open.

I chose ___. The work is at ___.

Review and improve

Show the real detail behind your note.

Use one next step to make the link clear.

Check the same page once more.

Optional: show or tell an adult what you changed after feedback. You may use your usual response mode or pass.

Mark R only after the pupil has responded to the next step and an adult has received and reflected the response.

Adult ticks the improved work.

Pupil voice

What helped you most today, or what would you change next time?

Point, speak, sign, draw, write or choose. You may pass.

Next lesson · Share my work and keep a real reply

Staff print card

At check-out, record E for today's lesson against each pupil's target on the evidence app.

At check-out, record E for linking a learnt skill to real arts work against the pupil's target.

Regulation: check the colour-and-word card at Arrival and after You do.

VF · WS · I · NS + … · E · R · // · ?

Soft instrumental music for transitions if the class plan says so. Sound off by default.

P17 planning and evaluation

For absence or access, use the first worked card in I do or We do. If behind, keep one model cue, the checkpoint and one book response.

Cognition and learning

Keep a model and a two-choice start in view. Fade one cue when the pupil shows the next step.

Communication and interaction

Allow thinking time. Use a visual choice and a brief stem. Accept all listed modes or a pass.

SEMH

Offer a calm start and a private response. Keep quiet sharing equal in value.

Sensory and physical

You may point to real work, draw a clue, or tell an adult what to record. A quiet share has the same value. You may pass.

EAL

Plan in any language. Show the term with a picture and action.

Staff evaluation

Record one actual response, a useful adaptation and the next teaching action.

P18 individual target opportunities

Use the current target in private. Record the actual response and support.

Adult deployment and responsive feedback

Point to the place or instruction.

Ask one short question.

Rephrase the instruction.

Give a scaffold or a choice.

Model the first step only, then return the task.

First lesson back

Read once only. Welcome pupils and check the last work in private. Offer a quiet route back in.

Return to learning

Offer the first model cue, then rejoin the chosen route.

Topic guidance

Use actual artwork, practice notes and the Week 6 look-back record. Keep the learner's own words and distinguish model examples from pupil records. Use A · Take part, B · Find out, C · Make and D · Share as filing prompts for the award. Keep A and C work distinct. For BUILD, this is Part D preparation: retain the actual practice reply at D page 2. D page 3 stays pending unless the actual event occurred. For GROW, check the real items and their locators across the arts log. Open each locator before treating it as verified. Count actual submitted files and clips, up to ten; do not invent a count or force a completed set. Leave missing records and unobserved replies as gaps with one follow-up action. No public event or completion decision is supplied. The owner confirms any later share.

Practice evidence only. No completion decision, encounter, public event or completed response is pre-filled.
