Recall and comparison

In Lesson 1, which work did you link to a skill?

Use the actual Lesson 1 item, own words and checked locator. Accept an accessible account of the link. If the record is unavailable, retrieve it or keep that as an open action.

How did you check the link?

The page or file opened to the actual item and its detail supported the stated skill. An unchecked box or assumed record was not enough.

Decision checkpoint

Which reply can we keep in the log?

A · What the listener really said, signed or showed.

B · What we hope the listener would say.

A is a real reply. Keep B as a thought, not a reply that happened.

Release the sharing and filing task when the pupil distinguishes an actual response from an assumed one and can point to the real work. If not, model listening and faithfully recording one reply. Check again with the parallel question. Keep an unobserved reply open.

No one has replied yet. Can we fill in a good reply?

No. Leave a gap and agree how to ask a listener. A pass is valid.

Staff feedback

At check-out, record E for today's lesson against each pupil's target on the evidence app.

At check-out, record E for sharing arts work and checking the real reply against the pupil's target.

Regulation: check the colour-and-word card at Arrival and after You do.

Optional: show or tell an adult what you changed after feedback. You may use your usual response mode or pass.

Mark R only after the pupil has responded to the next step and an adult has received and reflected the response.

Adult ticks the improved work.
