Comparing places through online evidence

Humanities · LAUNCH · Autumn 2 · Week 6 · HUM-LAUNCH-A2-W06

Staff card

Staff print card

3 November 2026

Invite a response. Give thinking time. The learner may pass.

Arrival regulation check: Green · Ready, Amber · Help, Red · Pause. Say the words as well as showing the colours. Invite a response and allow a pass.

Code	Meaning
VF	Verbal feedback
WS	Worked with support
I	Independent
NS + …	Next step
E	Evidence captured
R	Pupil responded to feedback
//	Self-edit point
?	Read this back to me

At check-out, record E for … against the pupil's target.

Mark R only after the pupil has responded to feedback with an adult.

Return-to-learning route for this lesson: after a pause, rejoin Supported with card D and one matched map feature.

Soft instrumental music for transitions if the class plan says so

Sound is off by default.

Pupils edit in the same colour, on the same page.

Made by Matt

Humanities · LAUNCH · Autumn 2 · Week 6 · HUM-LAUNCH-A2-W06

P17 · SLT planning and evaluation

Compare the local area with a contrasting place using online evidence.

Stage	Minutes
Arrival including opening	4
Starter	3
I do	6
We do shared investigation	7
We do decision checkpoint	2
You do	12
Review and improve	3
Exit ticket	3

Planned adaptations

Need	Plan
Read or sequence	Use one card and one short instruction.
Communicate	Allow a private point, sign, spoken answer or exact scribing.
Pause and return	Return-to-learning route for this lesson: after a pause, rejoin Supported with card D and one matched map feature.
Access the drawing	Use the larger view or describe the marked features.

Catch-up embedded this lesson: revisit map scale and evidence coverage in Starter, then compare the same feature in We do.

If behind

Keep one model clue, one shared check, the checkpoint, a book response and the exit. Shorten repeated practice.

Staff evaluation

Evidence, adaptation and next teaching move

Made by Matt

P18 · Individual target opportunities

Use the learner’s actual agreed target.

Opportunity	Evidence	Actual support
Find a clue	Select a card detail.	_____
Explain	Link evidence to the answer.	_____
Check	Keep or revise one detail.	_____
Regulate	Use a pause or a private response.	_____

The teacher models one step. A second adult, if available, reads a card or records the exact response. With one adult, set out the card and return for the pupil’s reason.

Give time, point to a clue, ask a short question, then offer a frame or choice. Invite a response. The learner may pass.

Made by Matt

Humanities · LAUNCH · Autumn 2 · Week 6 · HUM-LAUNCH-A2-W06

First lesson back · once-only read

Check what pupils can show from the previous lesson and revisit it within the planned stage.

Use the supplied examples. Invite a response, give thinking time and allow a pass. Use only the learner’s own evidence.

Made by Matt

Teacher answers · Arrival

Arrival · Supported

Point to the picture that matches the top one.

The lower left picture matches the top one.

Arrival · Supported

Which meaning fits settlement?

A place where people live

Arrival · Supported

Why compare maps at similar scales?

It reduces misleading differences caused by showing unequal areas or detail.

Arrival · Supported

Can one street represent a whole town without qualification?

No. State the sampled area and limits.

Arrival · Independent

Point to the picture that matches the top one.

The lower left picture matches the top one.

Arrival · Independent

Which meaning fits settlement?

A place where people live

Made by Matt

Arrival · Independent

Why compare maps at similar scales?

It reduces misleading differences caused by showing unequal areas or detail.

Arrival · Independent

Can one street represent a whole town without qualification?

No. State the sampled area and limits.

Arrival · Aspire

Point to the picture that matches the top one.

The lower left picture matches the top one.

Arrival · Aspire

Use settlement in an accurate example.

A settlement is a place where people live. In the two map drawings, the smaller centre and the larger centre show parts of two settlements.

Arrival · Aspire

Why compare maps at similar scales? Which detail supports your answer?

It reduces misleading differences caused by showing unequal areas or detail. In the same-scale drawings, the smaller centre has a few buildings along one road, while the larger centre has more streets and buildings.

Arrival · Aspire

Can one street represent a whole town without qualification?

No. State the sampled area and limits.

Made by Matt

Starter

What should you check before comparing two maps?

Check the scale and the area each map covers.

Starter

What can a source label help you check?

Who made the map, its coverage and the information it records.

Starter

Why compare maps at similar scales?

Comparable scales reduce misleading differences in detail or the size of the area shown.

Starter

Can one street represent a whole town?

Describe the sampled area and qualify the claim.

I do · 1

Why compare maps at similar scales?

Comparable scales reduce misleading differences in detail or the size of the area shown.

I do · 1

Which source helps us begin?

Use card D. Card D asks us to compare a smaller centre and a larger centre at comparable scales.

Made by Matt

I do · 2

Which detail in the card can help with the question?

Card D asks us to compare a smaller centre and a larger centre at comparable scales.

I do · 2

What does this clue help us say?

A difference in map detail can come from the scale. Check the source and coverage before calling it a real contrast.

I do · 3

How could I explain the link?

Name each sampled area, compare like features, and record the source, observation round and scale.

I do · 3

How can I start my answer?

At a similar scale, sample A shows ____ while sample B shows ____. My evidence is ____. The limit is ____.

I do · 4

Can one street represent a whole town?

No. Describe the sampled area and qualify the claim.

I do · 4

What is one limit to keep in mind?

One sampled street gives evidence about the sample. It cannot establish a whole-settlement pattern on its own.

Made by Matt

We do

What can you compare at a similar scale?

For example, street pattern, open land or a category of land use.

We do

How can different coverage mislead?

A map of a wider area can contain more features just because it shows more land.

We do

What should each contrast include?

A precise feature, a source and the sampled area.

We do

Which clue will you use?

Card D asks us to compare a smaller centre and a larger centre at comparable scales.

We do

What is one limit?

One sampled street gives evidence about the sample. It cannot establish a whole-settlement pattern on its own.

We do decision checkpoint

Which choice fits the evidence?

Compare equivalent areas at a similar scale.

Made by Matt

We do decision checkpoint

What evidence helps you decide?

Different coverage changes the count and can create a false contrast.

Made by Matt

Teacher answers · You do

You do · Supported

Check the detail you used.

Card D asks us to compare a smaller centre and a larger centre at comparable scales.

You do · Supported

Check your reason or limit.

A difference in map detail can come from the scale. Check the source and coverage before calling it a real contrast. One sampled street gives evidence about the sample. It cannot establish a whole-settlement pattern on its own.

You do · Independent

Check the detail you used.

Card D asks us to compare a smaller centre and a larger centre at comparable scales.

You do · Independent

Check your reason or limit.

A difference in map detail can come from the scale. Check the source and coverage before calling it a real contrast. One sampled street gives evidence about the sample. It cannot establish a whole-settlement pattern on its own.

You do · Aspire

Check the detail you used.

Card D asks us to compare a smaller centre and a larger centre at comparable scales.

You do · Aspire

Check your reason or limit.

A difference in map detail can come from the scale. Check the source and coverage before calling it a real contrast. One sampled street gives evidence about the sample. It cannot establish a whole-settlement pattern on its own.

Made by Matt

You do · Choice

Check the detail you used.

Card D asks us to compare a smaller centre and a larger centre at comparable scales.

You do · Choice

Check your reason or limit.

A difference in map detail can come from the scale. Check the source and coverage before calling it a real contrast. One sampled street gives evidence about the sample. It cannot establish a whole-settlement pattern on its own.

Made by Matt

Review and improve

Is my detail accurate?

Card D asks us to compare a smaller centre and a larger centre at comparable scales.

Review and improve

Does my reason follow from the source?

A difference in map detail can come from the scale. Check the source and coverage before calling it a real contrast.

Review and improve

What could I check or change?

One sampled street gives evidence about the sample. It cannot establish a whole-settlement pattern on its own. Edit in the same colour, on the same page.

Exit · Supported

Why compare maps at similar scales?

Comparable scales reduce misleading differences in detail or the size of the area shown.

Exit · Supported

Can one street represent a whole town?

No. Describe the sampled area and qualify the claim.

Exit · Independent

Why compare maps at similar scales?

Comparable scales reduce misleading differences in detail or the size of the area shown.

Made by Matt

Exit · Independent

Can one street represent a whole town?

No. Describe the sampled area and qualify the claim.

Exit · Aspire

Why compare maps at similar scales? Use one clue.

Comparable scales reduce misleading differences in detail or the size of the area shown. Card D asks us to compare a smaller centre and a larger centre at comparable scales.

Exit · Aspire

Can one street represent a whole town?

No. Describe the sampled area and qualify the claim. One sampled street gives evidence about the sample. It cannot establish a whole-settlement pattern on its own.

Exit · Choice

Point, draw, sign or tell an adult. Why compare maps at similar scales?

Comparable scales reduce misleading differences in detail or the size of the area shown.

Exit · Choice

Can one street represent a whole town?

No. Describe the sampled area and qualify the claim.

Humanities · LAUNCH · Autumn 2 · Week 6 · HUM-LAUNCH-A2-W06

TA Brief

Compare the local area with a contrasting place using online evidence.

Arrival regulation check: Green · Ready, Amber · Help, Red · Pause. Say the words as well as showing the colours. Invite a response and allow a pass.

Use the supplied examples. Invite a response, give thinking time and allow a pass. Use only the learner’s own evidence.

Return-to-learning route for this lesson: after a pause, rejoin Supported with card D and one matched map feature.

Optional: show one contrast and source detail to an adult. Hear one piece of feedback. Reply with a change, a reason to keep it or a request for help.

Use one route. Record only the pupil’s own response and the support given. Next lesson: Writing up a fieldwork enquiry.

Made by Matt

Humanities · LAUNCH · Autumn 2 · Week 6 · HUM-LAUNCH-A2-W06

Teaching script · Arrival including opening

Use one Arrival route. Let pupils match the picture before reading the other prompts. Give time to think and allow a pass. Arrival regulation check: Green · Ready, Amber · Help, Red · Pause. Say the words as well as showing the colours. Invite a response and allow a pass.

Made by Matt

Humanities · LAUNCH · Autumn 2 · Week 6 · HUM-LAUNCH-A2-W06

Teaching script · Starter

Use the drawing to ask: What should you check before comparing two maps? What can a source label help you check? Catch-up embedded this lesson: revisit map scale and evidence coverage in Starter, then compare the same feature in We do.

Catch-up embedded this lesson: revisit map scale and evidence coverage in Starter, then compare the same feature in We do.

Made by Matt

Teaching script · I do

Ask Why compare maps at similar scales? Point to card D. Think aloud: Comparable scales reduce misleading differences in detail or the size of the area shown. Card D asks us to compare a smaller centre and a larger centre at comparable scales. Check: Can one street represent a whole town? Describe the sampled area and qualify the claim.

Made by Matt

Humanities · LAUNCH · Autumn 2 · Week 6 · HUM-LAUNCH-A2-W06

Teaching script · We do shared investigation

Compare the local area and the smaller centre at similar map scales. Check creator, coverage and source details and the question each source can answer. Take a turn to suggest a match, then check the evidence. Ask for a clue. For example, street pattern, open land or a category of land use.

Made by Matt

Teaching script · We do decision checkpoint

Offer a private choice. One map shows a whole centre. The other shows one street. What should you do? Reveal: Compare equivalent areas at a similar scale. Different coverage changes the count and can create a false contrast. Optional: show one contrast and source detail to an adult. Hear one piece of feedback. Reply with a change, a reason to keep it or a request for help. Mark R only after the pupil has responded to feedback with an adult.

Made by Matt

Teaching script · You do

Select one route. Start in your book. Create a comparison using online maps of both named places. Retain the learner’s own contrast and source detail and actual support used. Return-to-learning route for this lesson: after a pause, rejoin Supported with card D and one matched map feature.

Made by Matt

Teaching script · Review and improve

Check one evidence detail. A difference in map detail can come from the scale. Check the source and coverage before calling it a real contrast. Ask for one improvement or reason to keep the detail.

Made by Matt

Teaching script · Exit ticket

Use the two exit questions. Why compare maps at similar scales? Can one street represent a whole town? Accept accurate equivalents and plan the next prompt. At check-out, record E for … against the pupil's target.

Explain one idea in your own words.

Check a source. Show what it says about your idea.

What helped you most today, or what would you change next time?

Made by Matt
