Master: a reasoned written judgement

I can revise a written judgement about a fictional stem-cell case and explain why my edits improve it.

Success: narrow the claim, explain a missing result and give a conditional judgement.

Route card

Staff: cut these apart before the lesson. Give one route card. Other routes remain available.

Supported

Supported

Supported route card with the tier name

Replace “Everyone moves better” with a claim about the group studied.

Use Reference A and B and the matching task sheet.

Staff I ☐ S ☐ C ☐

Independent

Independent

Independent route card with the tier name

Rewrite “It works for everyone and is safe” as two evidence-based sentences.

Use Reference A and B and the matching task sheet.

Staff I ☐ S ☐ C ☐

Aspire

Aspire route card with the tier name

Repair the claim that the approach caused better movement. Explain the limitation.

Use Reference A and B and the matching task sheet.

Staff I ☐ S ☐ C ☐

Choice

Choice route card with the tier name

Choose a repair: “Movement improved in this group” or “Everyone benefits.” Explain.

Use Reference A and B and the matching task sheet.

Staff I ☐ S ☐ C ☐

Made by Matt

Reference A case card

Three cards show Movement, Harms and Further check.

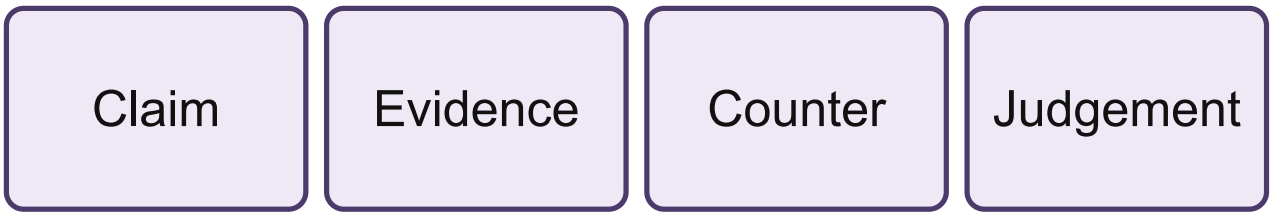

Reference only. The case is fictional.

Card	What the report says
Movement	Movement improved in the group studied.
Harms	The report gives no results for harmful effects.
Further check	Measure movement and possible harmful effects in suitable comparison groups.

An improvement in the group supports a possible benefit. A suitable comparison can help test whether the approach caused it.

Made by Matt

Reference B argument chain

Four cards show Claim, Evidence, Counter and Judgement.

Reference only. Read each link before writing your judgement.

Link	Question to ask
Claim	What idea am I asking others to accept?
Evidence	Which result supports it?
Counter	Which uncertainty could change my view?
Judgement	What do I recommend, and under what conditions?

Research and routine use are different decisions. Say what you would check before changing the recommendation.

Catch-up sheet absence or access only

Use this after absence or when an access barrier prevents joining. It replaces a starting step.

1. A stem cell can divide and give rise to specialised cells.

2. In this fictional case, movement improved in the group studied. Harms were left out of the report.

3. A judgement weighs the possible benefit and what is still unknown.

Point to one case card, explain it and join the current model or the first You do task.

verbal · written · drawn · signed · symbol / choice-selected · demonstrated / re-attempt · adult-scribed. You may pass.

Choice task sheet

Select an answer and give a short reason. Use Reference A and B.

1. Choose a repair: “Movement improved in this group” or “Everyone benefits.” Explain. Staff I ☐ S ☐ C ☐

---

2. Choose a repair: “Harms were not reported” or “No harms happened.” Explain. Staff I ☐ S ☐ C ☐

---

3. Choose a repair: “Research with safeguards” or “Use now.” Explain. Staff I ☐ S ☐ C ☐
