# Teamwork in a Vocational Setting

## Before the lesson

Watch (staff preview first): none suggested

Read the goal and steps. Prepare the word page, book and cut cards. Ask which response mode helps. Point, speak, sign, draw, write or choose. You may pass.

Safety: The screen describes steps only. Any practical task is off screen, authorised and supervised. The adult checks the space, kit, water and task rules first. Use no hot, sharp, powered or chemical kit without the specific controls and training. Stop for spills or damaged kit. Dry card rehearsal remains available and is recorded as rehearsal.

## During the lesson

Arrival: let the pupil inspect the picture before reading. Accept a point, sign or a pass. Do not tap an answer for them.

Starter: use Next light. With reduced motion, automatic lights stay off. Receive the pupil view in the class vote.

I do: point to the revealed step. Hinge answer: Agree roles so each part gets done. A checker finds gaps before the task ends.

We do: Pass the pointer: a team member points to a task card. The next names the role that does it. Another gives a kind way to offer help. Swap roles each round. The teacher moves between teams and accepts signs or paper choices.

Points: 1 point for a role matched to its task; 1 point for a useful offer of help that leaves the choice with the teammate. Every team can score.

## Independent work and record

Read the chosen route and book line. Keep making optional. Use the least prompt that helps; fade it when ready.

Record the actual help: _____

Observed pupil action: _____

Pupil response or confirmed scribed words: _____

Next support or task change: _____

Do not award an outcome from a rehearsal, attendance or a group score.
