

Light Across the Map

I can map festival examples, extract meaning/practice from faith-community sources and explain variation.

[Open the original interactive lesson](#)

Teacher reports which approved case-source set pupils selected in W10 and any provenance boundary.

Standard

Explain why 'celebrated in India' is different from 'only celebrated in India'.

How do place, movement and community shape where a festival is celebrated—without making faith equal nationality?

Enquiry

MAP EXAMPLES · NOT FAITH BORDERS

A pin marks one documented example. It never means “this faith lives here”.

ASK WHO CREATED EACH ACCOUNT

Every account has a maker. Name them before you quote them.

MEANING AND PRACTICE VARY

A shared lens is not a shared meaning.

USE “SOME”, “THIS SOURCE” AND “ONE EXAMPLE”

How do place, movement and community shape where a festival is celebrated—without making faith equal nationality?

Qualified claims are accurate claims.

How do place, movement and community shape where a festival is celebrated—without making faith equal nationality?

Schematic world with example pins

Source card

Three light symbols

How do place, movement and community shape where a festival is celebrated—without making faith equal nationality?

SAFE WORDING

“Some communities ...” · “This source documents ...”

“One example is ...”

never: “All ...” · “Everyone ...” · “X people always ...”

Safe wording card

Model defensible map-and-source reasoning

Watch the decision, evidence and limitation—not just the finished sentence.

1. Plot an example location, then label it ‘one documented celebration’, not ‘the home of all believers’.
2. Separate evidence fields: calendar/date, meaning, practice, community/place and source perspective.
3. Diwali, Chanukah and Christmas each include light in different ways; similarity in symbol does not make meanings identical.

Claim checker · safe, or too big?

Model defensible map-and-source reasoning

Choose a sentence. Is it qualified with “some”, “this source” or “one example” — or does it claim everyone?

- A. This source documents one London event where lamps were lit.
- B. All Hindus celebrate Diwali in the same way.
- C. Some communities in more than one country mark a festival of light.
- D. Everyone in that country is religious.
- E. Jewish people always light candles in December.
- F. One example in this pack is a Reform community in Milton Keynes.

Model defensible map-and-source reasoning

G. safe wording

H. too big

Choose a sentence.

Repair rule: add the source, shrink the group (some / one / this), and keep the calendar and meaning to what the source actually says.

Commit before reveal

A BAPS page describes diyas, rangoli, worship and gathering. Which conclusion is defensible?

- A. This BAPS source gives examples from one Hindu tradition; practices and meanings can vary.
- B. Every Hindu person celebrates Diwali in exactly this way.
- C. Diwali is only celebrated inside India.

Add precision without overclaiming

Compare, qualify, protect variation.

1. Diwali source: one Hindu organisational account; light, knowledge, worship, food and gathering are examples, not a universal checklist.
2. Named Reform/Jewish sources: MRJ explains eight days, rededication and visible-window/public lighting; JML locates one Milton Keynes community candle-lighting; WJC documents Beijing and US examples.
3. Christmas sources: Anglican/ecumenical accounts centre the Incarnation, with light and hope expressed differently across world churches.

Rehearse the disciplinary move

Festival example map

Example pins, not faith borders: the schematic shows selected documented/global examples. It is not distribution data.

London · BAPS-LDN Beijing · WJC US cities · WJC Karlsruhe · WCC Pacific · WCC

A. Diwali

B. Chanukah

C. Christmas

Rehearse the disciplinary move

Choose one named perspective. Locate examples, extract meaning/practice, then qualify.

Independent Humanities mission

Create a three-case festival geography board. For each case: plot one example location or global-reach statement, record meaning/practice from the named source, and add a variation/limitation label. No personal faith disclosure is required.

EVIDENCE READY

Materials Printed route, named source cards and approved atlas/map as specified.

Access / care Enlarge, chunk, colour-adjust, read exactly or use agreed response mode. No personal disclosure required.

Independent Humanities mission

Evidence target Decision → map/source action or product → learner explanation; highest prompt recorded.

Supported

Complete two case cards using provided phrases; plot two examples; add 'This source cannot represent ____.'

Source ____ shows that some ____ communities _____. One example place is _____. This does not mean _____.

Standard

Independent Humanities mission

Complete three sourced case cards with location/reach, meaning, practice and one respectful qualification each.

Example location/reach → creator → meaning → practice → variation/limitation.

Stretch

Compare how source perspective and map scale alter the story; repair one misleading 'faith = country' claim.

Map selection + source perspective → misleading inference → evidence-led repair.

Close one loop—do not create a second task

Standard

Explain one global-reach claim with a respectful qualification.

Named audience receipt

“I heard your claim/decision as _____. Your evidence was _____. Your uncertainty/limit was _____.”

Influence: Pupils choose an approved pair and one comparison lens for W12: meaning, practice, calendar or public/private place. Teacher reports the viable choice at W12.
