

Pinpoint the Place

GROW • Humanities • 40 minutes

I can use an atlas index and grid references to locate and describe a place, then state one representation limit.

Name: _____ Date: _____

You may write, type, say, sign, point or direct a partner. An adult can read the words and record your exact response. Keep the choice and explanation your own.

We do • make a choice and give a reason

A bridge lies in the square east of line 31 and north of line 44. Which four-figure reference identifies the square?

- 3144
- 4431
- 3245

My choice and the evidence I used:

Resources and independent record

_____ Date: _____

Enquiry

How can a grid reference make a location precise without pretending a map shows everything?

Independent mission

Use the printed River Tees rehearsal grid and one teacher-approved atlas/map. Record locations with grid evidence, write a relative-location sentence, then identify one limitation of the representation.

Supported route

Find two symbols; record two four-figure references; complete '____ is ____ of ____'. The map cannot show ____.'

Prompt frame: Along first: _____. Up second: _____. Grid reference: _____. It is ____ of _____. The map cannot show _____.

Standard route

Use index/key plus three four-figure references; describe a route or relative location; explain one map limitation.

Method: Index/key → easting → northing → direction/distance → representation limit.

Stretch route

Use the symbol's position within its square to explain what a six-figure reference would add; do not invent one from this schematic. Then judge whether extra precision changes the conclusion.

Method: Four figures locate a square. Six figures would narrow the point by _____. More precise location does / does not strengthen the wider claim because _____.

Pupil evidence sheet

Use an atlas and grid references to describe location.

Bridge

☐ Market

Constructed practice grid: original educational schematic, not an OS/navigation map; use only for this task.

1 · Grid evidence

Record the four-figure reference for Bridge, Market and Library.

2 · Describe location

Use north/south/east/west, beside/across and distance/scale.

3 · Representation limit

A grid/map helps by _____. It cannot show/explain _____.

Evidence, prompt and response record

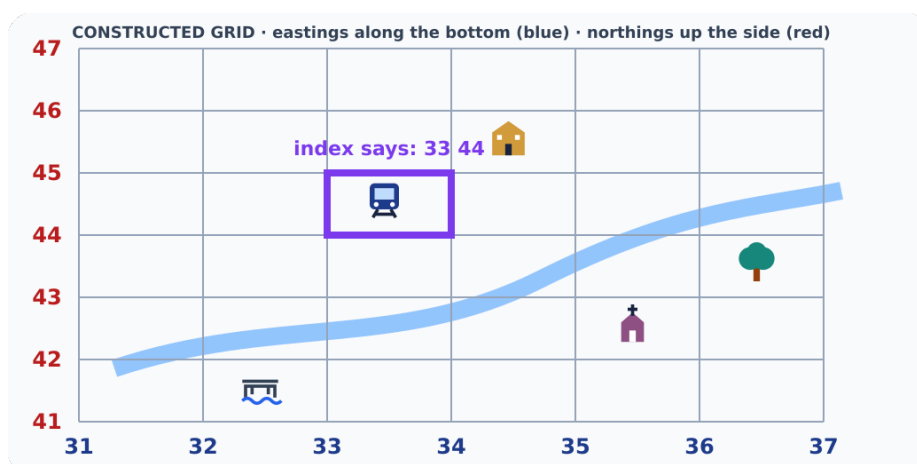

Paper route • discuss the lesson choices

Use these choices with the matching teaching stage. Point to or number a choice, explain it, then revisit it after feedback. The original HTML keeps the live controls.
