Staff answers and teaching notes

Exact lesson outcome

I can identify one requirement I already meet and one thing I may need to work on.

Core explanation

Match a requirement to a relevant clue. A strength and a next step can coexist. The source focus uses gaps; explain it as information to check or a skill to practise, never a deficit label. All job requirements are invented for this task. Do not collect actual attendance or qualification records.

Model A

The invented person asked for help with a word: attitude is S Shown here. A has not tried the three-step plan: skill is N Next step. Attendance and qualification are ? Check because no facts are given. The target is practice with a word list and trusted adult next lesson, checking all three cards. No claim about a real person or recruitment rule.

Model and hinge keys

Model check A: asking for help is evidenced. Main hinge B: check an unknown qualification with support. Parallel A: plan a small practice step. Re-model unknown versus evidence if unclear, then recheck privately. Pass is unobserved.

Three states

S Shown here needs a relevant clue. ? Check records missing information. N Next step marks an agreed focus for practice or finding out. A Check item can become the selected next-step target without changing the fact that it is unknown. These labels adapt the source RAG structure; no colour-only coding or ranking of learners.

Qualification and attendance

The cards name a generic type or level only. Levels are not qualifications held by the learner. Keep Check unless relevant information is known without collecting personal records; this lesson does not require such evidence. Do not infer attendance from the learner being present today or qualification from completing a task.

Choice answers and feedback

B Stockroom

Task order: bag, box, tray. An accurate learner-produced order, using the plan and usual aid, can support Shown here for the card’s skill. Record exactly what help was used. Attendance and qualification remain Check. Attitude can be Shown here only if asking for help when unclear was actually observed; otherwise Check. A valid target is practise a new list with an adult and word card next lesson, checking all three labels.

C Garden

Task order: fill pot, add seed, water. Apply the same evidence rule. This is ordering words, not demonstrating gardening competence. Attendance and qualification remain Check; attitude requires an observation. A valid target is practise a new plan with an adult and word card next lesson, checking all three steps.

Other valid next steps

A learner may choose to find out what the qualification level means with a trusted adult at the next careers lesson. Keep the answer or unresolved question as the check. Accept a relevant small practice or information target with support. Further practice is valid even after a skill is shown once. Do not invent a weakness just to fill the checklist.

If a skill is not yet shown

Re-read the plan, offer two choices and model the first step only. Record supplied answers. Invite another attempt with usual aids; partial evidence is valid if the learner still cannot show it. An adult-supplied order must not be presented as independent evidence. Use a later supported check rather than forcing a positive judgement.

Judgement and next step

Record the strength match and next-step identification separately. A shown skill needs an actual clue. The target should relate to the card and say what, help, when and how to check. One NS can add a clue or tighten the target. Retain first response and reply. No inference about real eligibility, worth or future success.

Evidence and safe delivery

Assessment record

Exact evidence: Requirement-match checklist and one improvement target. Keep actual ordered work, four states, one shown need and clue, one next step, target/help/time/check, access, answer prompts, first response, NS and reply. Partial or unobserved is recorded honestly. No grading of private circumstances.

Typed and scribed route

Evidence Sheet page 2 has blank fields for either job card. Save through usual routine with lesson code and work reference; show privately. Record exact words/selections, read back and permit correction. Book or usual aid is valid. No real application is made.

Feedback and portfolio

E means actual evidence banked; R follows Voice, Audience, one NS and the learner’s reply. Add checklist and target to Careers Portfolio; offer to Communication portfolio. Staff confirm any accredited mapping from actual work.

Private help and boundaries

Trusted adult or the school’s help route. Point to HELP, write or ask for a private talk. Pass and supported pause/return remain available. No public questioning or disclosure of real grades, attendance, family work or finances. Listen calmly, avoid probing or secrecy promises and follow usual procedures. Keep concerns outside public evidence.

Source and limits

BUILD Careers physical row 19 / Spring 1 row 4. Tuesday 26 January 2027 P3, up to five learners, 40 minutes in 5/8/10/12/5 phases. H19 requirement matching, three-state checklist and supported improvement target retained. Prepared cards replace websites. Generic requirements are practice examples; staff check actual requirements and support before real decisions. No practical work task is taught.

Queue

Next BUILD Careers Weeks 5–6, one per return; then previously queued LAUNCH Careers Week 1. Further GROW Careers paused until asked. Only Week 4 authored; pause for Downloaded.
