Staff answers and teaching notes

Exact lesson outcome

I can create a Plan A and a backup Plan B with the next step I need to take.

Model A

Goal food service assistant. Course with food tasks then work with training/support, or paid food service apprenticeship with training then food service work. Both aim at the same goal and start differently. Action: by Friday 12 February ask an adult to help check course entry. No real entry fact or offer is invented. The support clue is from the invented practice talk, not a real visit.

B and C route choices

B: college work-skills course then stockroom work with support, or paid stock-handling apprenticeship with training then stockroom work. C: college plant-care course then garden work with support, or paid plant-care apprenticeship with training then garden work. Either route can be A or B; assess distinct routes and accuracy, not preference. An own generic job is valid after staff checks the route logic.

Concrete actions

Valid: ask an adult to help check one entry need by Friday and keep the answer; practise a named skill with a model at the next check. Vague: find out, try harder, get a job. Help learner specify action, help and check time without inventing real admissions deadlines. Friday 12 February is a lesson action review date only.

Keys

Model A: two different routes. Main B: add a different backup and clear action. Parallel A: ask about entry by Friday and keep the reply. Re-model missing element; recheck privately. Pass is unobserved.

Six outcome assessment guidance

Weeks one to three

W1: ordered career story, change point and coping note. W2: at least three route types named, retaining the full source outcome. W3: paid work plus training and one application need. Look at actual work and recorded prompts. A recap response may give new evidence dated today; it is not proof earlier work was completed.

Weeks four to six

W4: one evidenced strength/requirement and a next step to work on; unknown personal qualifications stay unknown. W5: learner-selected or constructed question asked through the usual mode and suitability reflection. Keep real, staff practice and pending labels; practice does not establish an actual provider attended. W6: two routes to one goal plus a concrete action, privately checked for accuracy.

Tick and comment grid

Six exact G16–G21 outcomes appear on Evidence Sheet pages 3–4. Tick Shown, Partly or Not yet seen and comment on actual work reference/date, coverage and access/content cues. If missing, pending or passed, state that. No total score or invented evidence. A normal aid does not invalidate an outcome; adult-supplied thinking must be logged. No grade for a yes/maybe/no preference.

Week six judgement

Shown: same job goal, two different plausible scenario routes and specific next action. Help and time/check make the action usable. Partly: one element unclear/missing. Not yet seen: no sufficient response; distinguish absence/pass from observed difficulty. Keep first try, one NS and reply. Use another short private check if needed.

Access safety and portfolio

Routes and support

Supported default with pictures, word bank, frames and one instruction at a time. Two task choices B/C; own generic goal optional. Independent retains usual aids. Aspire compares a feature or explains backup use. Book, voice, sign, aid, typing or exact scribe valid. Read back and permit correction. No public questioning or forced private account. Plan in any language.

Private help

Confirm an available trusted adult and school help route. Learner can point to HELP, pass, pause and return. Listen calmly, avoid probing or secrecy promises and follow usual procedures. Keep concerns outside shared work. No names, real grades, address or family finances requested.

Feedback and portfolio

E actual evidence banked; R after Voice, Audience, NS and reply in the same colour, on the same page or usual mode. Add map and six-outcome grid to Careers Portfolio; offer to Communication portfolio. Staff confirm any accredited mapping. All example people, histories, route cards and deadlines are invented classroom examples; actual work records remain honest.

Source and next brief

BUILD Careers physical row 21 / Spring 1 row 6. Tuesday 9 February 2027 P3. I21 fixed 5/8/10/12/5 minutes retained. N21 S, assessing week; N20 F + S retained in portfolio context. This completes BUILD Careers Spring 1. Await full LAUNCH Careers Week 1 brief on acceptance; no further GROW Careers authored.
