

Knowledge Organiser (LAUNCH W5): Who shaped Britain, and how we decide

Humanities Aut 1 · 2026–27 · Workbook outcome: Diverse British history: people who shaped Britain.

Key Word	Definition
Modelled:	Modelled: criterion, documented reach. I read each card for how many people the contribution touched, not for how well known it is. Card C names a change applied across a whole service, so C leads. That order came out of the criterion, not out of my preference.
Modelled reply:	Modelled reply: under reach my order stands. Under a criterion that counted whether a door was opened for others, card D would rise, and I would not be able to keep it fourth.

Key Facts

- A ranking without a stated criterion is a preference.
- Reach, endurance and whether it opened a door for others are three usable criteria.

Arrival Task

Retrieving how judgement works

1) A ranking without a stated criterion is a preference.

2) Reach, endurance and whether it opened a door for others are three usable criteria.

Two rankings, one set of cards

Two learners rank the same four cards. Ranking A puts the card with the widest documented reach first. Ranking B puts the card whose change lasted longest first.

We Do 1: Commit to your ranking. Reveal together.

Card A and B: which leads under reach, and what in the card says so?

Card C: does endurance move it up or down?

Card D: which criterion is kindest to it, and is that a reason to choose it?

We Do 2: Say what a wider criterion would change

Everyone writes one sentence of concession on a whiteboard, then we hold up together.

The model

Modelled: criterion, documented reach. I read each card for how many people the contribution touched, not for how well known it is. Card C names a change applied across a whole service, so C leads. That order came out of the criterion, not out of my preference.

Modelled reply: under reach my order stands. Under a criterion that counted whether a door was opened for others, card D would rise, and I would not be able to keep it fourth.

Check yourself

- Check yourself: did you apply it to every card in the same way?
- Check yourself: does your concession name a criterion and a consequence?

From the lesson sheet

Who shaped Britain, and how we decide

SoW: 'LAUNCH Weekly - Autumn'!C50 — "Diverse British history: people who shaped Britain."

Learning objective: I can state a criterion, apply it consistently to rank contributions, defend it, and say honestly what a wider criterion would change.

No learner is asked about their own heritage or family history. Every judgement is made from the supplied contribution cards.

Criterion and ranking record

Criterion → order → defence → concession. The criterion is the argument.

The first row is done for you, from the ranking we built together. It is in italics so you know it is not yours.

Independent Work – Supported

Two cards under one criterion, scribing permitted.

Two cards ranked under one criterion, with the frame. Scribing permitted.

Criterion	Order	Defence	What a wider criterion changes
<i>documented reach</i>	<i>C B A D</i>	<i>C names a change applied across a whole service</i>	<i>counting doors opened for others raises D</i>

Choose a route

- 1. I chose my own route.
- 2. My criterion and defence are in my own words.
- 3. Any adult help is written on the record.

5 · Learner confirmation

I confirm this is my own work.

Learner name (print)	Signature
Date	

Exit Ticket – Supported

1) Read your criterion and concession to a partner. They say back what your criterion counted.

2) Did they name something you did not mean to count? Change one phrase. That change is your influence.

3) SPACE stays available, VOICE is received, AUDIENCE names back exactly and INFLUENCE changes one real next action.
