

Knowledge Organiser (LAUNCH W1): Belief, identity and belonging as an adult

Humanities Aut 1 · 2026–27 · Workbook outcome: Belief, identity & belonging in adult life.

Key Word	Definition
Modelled:	Modelled: Card C. The adult works nights in a hospital and eats no meat. The card gives the reason as: it is right to do so. That line points to belief, because it tells me what the adult holds to be true. I did not guess from the habit; I read the reason on the card.
Modelled reply:	Modelled reply: under the reason line, card A shows belief. Under the line about who the adult eats with after sunset, it also shows belonging, and I could not keep it as belief alone.

Key Facts

- Belief is what a person holds to be true. It can be religious or not.
- In adult life the three show up in small choices: what to eat, when to rest, what to wear, who to turn to.

Arrival Task

Retrieving three words adults live by

1) Belief is what a person holds to be true. It can be religious or not.

2) In adult life the three show up in small choices: what to eat, when to rest, what to wear, who to turn to.

One habit, two readings

An adult on a card keeps one day each week free of paid work. Reading A says this is belief: the adult holds that the day is set apart. Reading B says this is belonging: the adult does what the community they are part of does together.

We Do 1: Commit to your reading. Reveal together.

Card A: the adult wears a head covering at work. Which line on the card says why, and which word does that line point to?

Card B: the adult gives one evening a week to a food bank. Belief, identity or belonging, and which line proves it?

Card D: the adult keeps no faith and marks a family day every year. Which word does the card support, and is none of the three an honest answer?

We Do 2: Say what a second line on the card adds

Everyone writes one sentence on a whiteboard that names a second line and the word it points to, then we hold up together.

The model

Modelled: Card C. The adult works nights in a hospital and eats no meat. The card gives the reason as: it is right to do so. That line points to belief, because it tells me what the adult holds to be true. I did not guess from the habit; I read the reason on the card.

Modelled reply: under the reason line, card A shows belief. Under the line about who the adult eats with after sunset, it also shows belonging, and I could not keep it as belief alone.

Check yourself

- Check yourself: did you read each card for its reason, not for what you assume the habit means?
- Check yourself: does your second line name a word and say what it adds?

From the lesson sheet

Belief, identity and belonging as an adult

SoW: 'LAUNCH Weekly - Autumn'!C200 — "Belief, identity & belonging in adult life."

Learning objective: I can tell belief, identity and belonging apart in an adult case card, point to the line that proves my reading, and say what a second line adds.

No learner is asked what they believe or whether they belong to any faith or none.

Every reading is made from the supplied case cards.

Card reading record

Card → line → word → what a second line adds. The line is the argument.

The first row is done for you, from the reading we built together. It is in italics so you know it is not yours.

Independent Work – Stretch

Four cards read and defended, one carrying all three.

Card	Line on the card	Word	What a second line adds
C	<i>eats no meat, reason given: it is right to do so</i>	<i>belief</i>	<i>festival meal with neighbours adds belonging</i>

Choose a route

1. I chose my own route.
2. My line and word are in my own words.
3. Any adult help is written on the record.

5 · Learner confirmation

I confirm this is my own work.

Exit Ticket – Stretch

1) Read your card, your line and your word to a partner. They say back which line on the card you pointed to.

2) Did they point to a different line than the one you meant? Change one phrase. That change is your influence.

3) SPACE stays available, VOICE is received, AUDIENCE names back exactly and INFLUENCE changes one real next action.
