

Knowledge Organiser (BUILD W3): Places in My Community

Humanities Aut 1 · 2026–27 · Workbook outcome: Recognise places in my local community.

Key Word	Definition
Watch me do it:	Watch me do it: I look at the box by the park. It has no label yet on my copy. What is it? People go in with bags. They come out with food. It is the shop. I write the label: shop. I look first. Then I label.
Now watch one more:	Now watch one more: the box at the end of the street. People wait there. A bus stops there. It is the bus stop. I write the label. Same steps. Look first. Then label.
label	The diagram above has three boxes: label, then what it is for, then who is there. The first box is the name. The other two boxes are the note.
what it is for	The diagram above has three boxes: label, then what it is for, then who is there. The first box is the name. The other two boxes are the note.
who is there	The diagram above has three boxes: label, then what it is for, then who is there. The first box is the name. The other two boxes are the note.
Fixing it together:	Fixing it together: add the middle box. Library, for borrowing books, where you see a librarian. The word for often starts the middle box.

Key Facts

- Last week we met the people who help us. This week we look at the places they work in.
- A place has a name. A place has a use. The shop is for buying things. The park is for playing.
- A map is a drawing of a place from above. It shows where things are.
- You can point to a place on the map card. You do not have to say where you go.
- Some places are for everyone. The library is for everyone. The bus stop is for everyone.
- Two people can pick the same place. Their reasons can be different. Both are right.

Arrival Task

What we already know about places

- 1) Last week we met the people who help us. This week we look at the places they work in.

- 2) A place has a name. A place has a use. The shop is for buying things. The park is for playing.

- 3) A map is a drawing of a place from above. It shows where things are.

- 4) You can point to a place on the map card. You do not have to say where you go.

- 5) Some places are for everyone. The library is for everyone. The bus stop is for everyone.

- 6) Two people can pick the same place. Their reasons can be different. Both are right.

Why is a map with no labels no use?

Here are two maps of the same town. Map A: six boxes and a road. No words. Map B: the same six boxes. Each one has a label: school, shop, park, clinic, library, bus stop.

Try it in your head: think of the room you are in. Now think of the door. If you drew this room from above, where would the door go? That is a map. The word door is the label.

We Do 1: Label the map together

Box 1: people go in with books and come out with books. Label it.

Box 2: children play here. There are swings. Label it.

Box 3: a red box on a post. Letters go in the slot. Label it.

We Do 2: Annotate one place together

We annotate one place on the board first. Nobody writes yet. Everyone puts the middle box on a whiteboard. Then we show them all at once. Then we agree the note. The place for this note is the clinic. The label is done. Your job is the middle box: what is a clinic for? Write one use, not a describing word.

Scaffolding – Supported

Word Bank

Watch me do it:, Now watch one more:, label, what it is for, who is there, Fixing it together:, Space, Voice, Audience, Influence

Your route

One place. Label it on the map, then choose the use card and the person card that fit. An adult may scribe your exact words, and the words stay yours. Point to the label first, then the use.

Sentence frames

"Who ... what they do ... so that ..." | "... because ..."

Reference Zone — keep this beside your work

The model

Watch me do it: I look at the box by the park. It has no label yet on my copy. What is it?

People go in with bags. They come out with food. It is the shop. I write the label: shop. I look first. Then I label.

Now watch one more: the box at the end of the street. People wait there. A bus stops there. It is the bus stop. I write the label. Same steps. Look first. Then label.

Fixing it together: add the middle box. Library, for borrowing books, where you see a librarian. The word for often starts the middle box.

Check yourself

- Check yourself: does every place you named have a label?
- Check yourself: does the middle box say what people do there?
- Check yourself: would someone new to this town get your note?
- Check yourself: did you name who is there for each place?

From the lesson sheet

Places in My Community

SoW: 'BUILD Weekly - Autumn'!C48 — "Recognise places in my local community."

Learning objective: I can label places in my community on a map and annotate each one with what it is for and who is there.

No personal disclosure is required. Every task can be completed on the supplied map card of a made-up town.

The place note

Label → what it is for → who is there. The label comes first.

The first row is done for you, from the note we built together. It is in italics so you know it is not yours. Fill in as many of the rows below it as you can.

1234

Independent Work – Supported

One place, labelled, with a matched use and person.

One place. Label it on the map, then choose the use card and the person card that fit. An adult may scribe your exact words, and the words stay yours. Point to the label first, then the use.

Place (label)	What it is for	Who is there
<i>the clinic</i>	<i>checking we are well</i>	<i>a nurse</i>

Choose a route

1. I chose my own route.
2. My notes are in my own words.
3. Any adult help is written on the record.

5 · Learner confirmation

I confirm this is my own work.

Learner name (print)	Signature
Date	

Exit Ticket – Supported

1) Read one note to a partner or to an adult. The listener says back what the place is for, in their own words.

2) Did the listener hear a different use? Then change one word in your note. Make it say what you meant. That change is your influence. It belongs to you, not to them.

3) Did the listener hear just what you meant? Write that down too. A note that already works is worth noting. It needed no change.

Lundy Loop — this lesson

SPACE stays available. VOICE is received. AUDIENCE names back exactly. INFLUENCE changes one real next action.

Space	means you get room to join in.
Voice	means you get to say it.
Audience	means someone really listens.
Influence	means something changes because of what you said.
