Key Facts

- Two things can be the same kind of thing and still look different.
- Two bikes can be the same kind of thing. One is red. One is blue.
- Different does not mean wrong. It means not the same.
- You can like a thing that your friend does not like. You are both allowed.
- A card shows a thing. It does not show a person.
- We look at the cards. We do not ask about each other.

Arrival Task

What we know about same and different

1) Two things can be the same kind of thing and still look different.

2) Two bikes can be the same kind of thing. One is red. One is blue.

3) Different does not mean wrong. It means not the same.

4) You can like a thing that your friend does not like. You are both allowed.

5) A card shows a thing. It does not show a person.

6) We look at the cards. We do not ask about each other.

Two people, one card pair, two answers

Here are two answers about the same card pair. The pair shows two hats. Answer A: “Same. They are both hats.” Answer B: “Different. One is warm and one is for sun.”

Try it in your head: two shoes. One is a boot. One is a trainer. Same kind of thing? Or different? Hold your answer. Do not say it yet.

We Do 1: Choose. Hold. Show together.

Pair 1: two meals on two plates. Same kind of thing, or different?

Pair 2: two ways of saying hello. Same kind of thing, or different?

Pair 3: two kinds of music. Same kind of thing, or different?

We Do 2: Use one line together

We take one card pair. Two people show different cards. Everyone else picks which line they would say next, then we hold up the lines at the same time. Everyone commits before anyone reads one out. The pair for this one is the two ways of saying hello. Nobody is going to be told they are wrong. We are practising the reply, not the answer.

The model

Watch me do it: I take the hats pair. I look at both. I think: are these the same kind of thing? I choose same. I put my card face down. I do not say a word. Now I wait.

Now watch what I do at the show: cards turn over. Some say same. Some say different. I look for one that is not like mine. I ask that person for their reason. I say “that is a good reason”. I do not change their card for them.

What is not on the list: “that is wrong”, and “no it is not”. Those two lines stop the talking. The three lines on the wall keep it going.

Check yourself

- Check yourself: did you write a reason, not just same or different?
- Check yourself: is your reason about the cards, not about a person?
- Check yourself: did you pick a line you would really say out loud?
- Check yourself: would a person who chose the other card still want to talk to you?

From the lesson sheet

Same and different

SoW: 'BUILD Weekly - Autumn'!C50 — "Show respect for what makes us same/different (Black History Month)."

Learning objective: I can choose same or different, hold my choice, show it with everyone, and say one respectful thing to a person who chose the other one.

No personal disclosure is required. Every task can be completed with the supplied card pairs.

Commit and reveal record

Choose → hold → show together → ask for the reason.

The first row is done for you, from the pair we did together. It is in italics so you know it is not yours. Fill in as many rows below it as you can.

Independent Work – Stretch

Three pairs with reasons, and a reply to a reason you had not thought of.

Three card pairs. Write your reason for each. Then write what you would say if someone gave a reason you had not thought of.

Card pair	Same or different	My reason	What I would say
<i>two hats</i>	<i>same</i>	<i>they are both hats</i>	<i>what made you choose that?</i>

Choose a route

1. I chose my own route.
2. My reasons are in my own words.
3. Any adult help is written on the record.

5 · Learner confirmation

I confirm this is my own work.

Exit Ticket – Stretch

1) Read one reason to a partner or to an adult. The listener says back the reason they heard, in their own words.

2) Did the listener hear a different reason from the one you meant? Then change one word in yours. That change is your influence. It belongs to you, not to them.

3) Did the listener hear just what you meant? Write that down too. A reason that already works is worth noting.

Lundy Loop — this lesson

SPACE stays available. VOICE is received. AUDIENCE names back exactly. INFLUENCE changes one real next action.

Space	means you get room to join in.
Voice	means you get to say it.
Audience	means someone really listens.
Influence	means something changes because of what you said.
