

Muscle names and roles

Cut along the table lines, or point to a card without cutting.

Adult makes a safe table-based card model. Move role labels for each action. No strings around any body part; use loose strings, never stretched elastic.

Card	Card
BICEPS	TRICEPS
CONTRACTS	RELAXES
CONTRACTS	RELAXES
BEND AT ELBOW	ACTIVELY STRAIGHTEN AT ELBOW

Print only the sets you need. Adult preparation is an alternative to pupil cutting. These are original teaching labels and simplified models.

Model-component labels

Cut along the table lines, or point to a card without cutting.

Card represents bone; the turning join represents an elbow; a loose manually pulled string represents the effect of muscle pull. String does not contract itself.

Card	Card
CARD = BONE MODEL	TURNING JOIN = ELBOW MODEL
LOOSE STRING = MUSCLE-PULL MODEL	

Print only the sets you need. Adult preparation is an alternative to pupil cutting. These are original teaching labels and simplified models.
