Science · LAUNCH · Autumn 2 · Week 2 · SCI-LAUNCH-A2-W02 · Date _____

Growth and stem cells

Today I can… □ I can distinguish making more cells from cells taking on a specialised job. □ I can compare animal growth with plant growth. □ I can identify a role for an animal stem cell or a plant meristem.

Feedback: □ VF □ WS □ I □ NS □ E □ R □ [//] □ [?] _____

TA brief

Before the lesson

Prepare the large model cards and desk mat. Agree adult roles for the pair and the pause/re-entry cue. No cold calling; a learner may pass. An adult reads any inaccessible line without public reading.

Prompt ladder

1. Point to the relevant place / instruction.
2. Ask one short question: "What is it asking you to find?"
3. Rephrase the instruction in simpler language.
4. Provide a scaffold or limited choice.
5. Model the first step only, then return the task to the pupil.

Arrival · 5 min

Offer a private predictable start. Ask each learner for one detail in the supplied model, without requiring previous knowledge.

Starter · 3 min

Receive one answer at a time from each learner before showing the source answers. Revisit the success criteria.

I do · 5 min

Model the full skin/shoot comparison. Check each learner's response: more cells alone does not mean a new specialised job.

TA brief · continued

We do · 7 min

Wait five seconds, gesture, then cue if needed. Help with the missing step without telling the answer. Match order: division, elongation, differentiation. The quiet-minute reset is within this stage.

We do 2 · 5 min

Both learners show a hinge response together. Receive each reason. If either is unsure, re-model and use the parallel hinge in Staff Answers.

Independent · 8 min

Each learner completes one route and gives their own explanation. Record the deepest prompt separately. A shared card model does not replace individual evidence. Include the source quiet-minute reset.

Review and improve · 4 min

Give precise feedback only when it happens. Invite one real // edit or requested ? read-back. Include the source quiet-minute reset.

Exit · 3 min

Hear each learner privately in a valid response mode. Hand off what was independent and the deepest prompt. Use the responses to change the next model or prompt.

Safety

Prepared model cards stay on the desk mat; pick up any that fall. Check the school risk assessment and exact kit. This is optional model rehearsal, not a claimed core practical.
