Science · LAUNCH · Autumn 2 · Week 2 · SCI-LAUNCH-A2-W02 · Date _____

Growth and stem cells

Today I can… □ I can distinguish making more cells from cells taking on a specialised job. □ I can compare animal growth with plant growth. □ I can identify a role for an animal stem cell or a plant meristem.

Feedback: □ VF □ WS □ I □ NS □ E □ R □ [//] □ [?] _____

Teacher and cover plan

1. Outcome

I am learning to explain how cells divide and then take on different jobs for growth and repair.

Weekly line C40: Explain growth & stem cells.

2. Arrival

Notice one detail in the supplied seedling/skin-repair model.

3. Starter

Three source retrieval questions. Receive each learner's attempt before the answers.

4. I do

Model skin division/differentiation and plant division/elongation/differentiation.

5. We do

Complete the missing elongation label and match the three source clues.

6. You do

Each learner explains how a new cell gains a job using one source route.

7. Routes

F/M/H and Go deeper/Repair model audit remain open with the same goal.

8. Access

No cold calling; a learner may pass. Allow planning in any language and valid alternative response modes.

9. TA role

Agree roles for the pair. Use the held ladder. Adult prompting: _____

10. Exit

Hear each learner's own model and reason. Change the next model/prompt from their response.

11. Evaluation

Delivered: □ Yes □ Partly □ No. Next step: _____

12. Kit safety evidence and timing

Kit: prepared division, elongation and differentiation cards; two labelled branches and a desk mat. Cards may fall. Keep them on the mat and pick up any that fall. Confirm the school risk assessment and exact kit.

This is optional prepared-model rehearsal, not a claimed core practical. Keep the model separate from real observations or individual treatment claims.

Each learner leaves their own model/explanation, actual review edit and exit response. Record prompting separately. Evidence code: SCI-LAUNCH-A2-W02.

0–5 min · Arrival

5–8 min · Starter

8–13 min · I do

13–20 min · We do · KEEP

20–25 min · We do 2 · KEEP

25–33 min · Independent · KEEP

33–37 min · Review and improve

37–40 min · Exit · KEEP

Source quiet-minute resets are inside We do, Independent and Review. Multiple deck slides share their source stage time.

Pair decision: proceed when both learners show a secure hinge idea. If either is unsure, re-model and use the parallel hinge. Keep each response and prompt level separately.
