# TA brief · access, safety and pair roles

Two learners switch card chooser and reason-questioner after three cards, then speaker and listener. Each chooses a route and keeps own evidence, explanation and both exit answers.

Read or scribe exact pupil words. Point/say/sign/draw/write/type/adult-directed handling are valid; allow thinking time/private ask/pass. No cold calling, speed ranking, forced contact or public allergy disclosure.

Adult controls all liquids and ethanol. No pupil touching or tasting; no flames/sparks/heat; no human samples/mouth pipetting. Follow local approved method/PPE/disposal. Supplied records and observation are equal alternatives.

Prepare cards/organiser/books, pencils and source model views. If practical route is authorised: adult-prepared fruit/solutions, sealed bag, filter/mesh, clear tube, cold ethanol/tray under staff control. Otherwise use fictional table and picture sequence.

Teacher hears optional help request, says what can change, tries it and checks effect. Each pupil's final response has a real adult audience and one named next teaching move. No extra pupil form.

# TA brief · held five-step prompt record

Use the least prompt that gives access, then fade. Keep this adult record separate from pupil I · S · C □ marking.

1. Point to the relevant place / instruction.
2. Ask one short question: "What is it asking you to find?"
3. Rephrase the instruction in simpler language.
4. Provide a scaffold or limited choice.
5. Model the first step only, then return the task to the pupil.

Record pupil/date/task, response mode, prompt step1–5 or none, exact response, support faded and next teaching step. Do not infer marking codes from clicks, saved answers or completed boxes.
