TA brief · access and materials

Two learners. In rehearsal, one explains and one checks the clue, then swap. Each chooses privately first. Hear both at each hinge. Re-model only the unsure step; the secure learner tries a fresh example. Keep two individual records.

For the pair: two pupil record or paper sets, two pens, one tray of large prepared model/card pieces, and one staff key kept out of sight. Teacher device/projector optional. Provide two blank model/cross mats and one set of rehearsal cards. No practical or biological sample is required.

Use prepared cards and large model pieces on a tray. No biological samples or personal family details. Check the local risk assessment. No forced touch, cutting, public reading or pupil phone.

Point, sign, speak, draw, type or write. An adult may read or scribe your exact words. You may pass or take an agreed pause. Plan in any language.

No cold calling or public comparison. Use an agreed quiet pause and one-step re-entry. Follow each pupil’s plan; no evidence collection during distress.

Use the least prompt first: wait; point to the instruction; ask one short question; rephrase; model a different example. Return the science decision to the learner. Keep independent check items unsupported by answer cues.

TA brief · evidence and handover

Agree who supports each learner before the lesson. Record the response mode, deepest prompt, actual science and any unresolved error. Keep adult words separate from the pupil's words.

Keep rehearsal separate from the first independent response. After collection, the adult names back the pupil's meaning, offers a precise next step and hears the pupil's response.

Record real VF, WS, I, NS(+), E, R, // and ? events under SCI-LAUNCH-A2-W07 on [SYS]. R needs Voice, Audience, a next-step prompt and the pupil's own response. Never infer evidence from a click.

If behind, shorten secure rehearsal. Preserve each learner's own response and record any moved coverage. Do not invent the Spring 1 task.

Timing: Arrival 5 min; Starter 3 min; I do 5 min; We do 7 min; We do 2 5 min; Independent 8 min; Review 4 min; Exit 3 min. Total 40 minutes. Alternatives and continuations share each stage clock.
