Choose a rock for a job

I am learning to match a rock to a job.

Words

Word	It means	Example	My language
rock	a solid thing from the ground	This is a safe rock sample.	
hard	not easy to mark or change	This hard rock takes little mark.	
slate	a rock that can split into thin sheets	A slate tile can cover a roof.	
property	a thing you can check	This slate is thin.	

Look at the model

A slate tile can cover a roof; a suitable chalk piece can mark a board. Check actual samples. Simplified; not to scale.

How I know

I can name one rock use.

I can check one rock feature.

I can say why the feature helps.

Say first: This ____ can do the job as it is ____.

You can plan in any language.
