

Natural and made materials

I am learning to sort things from nature and things people make.

Words

Word	It means	Example	My language
natural	from nature, not made into a new item	A raw rock is natural.	
human-made	made or changed by people	People make a brick from clay.	
material	what a thing is made of	The brick has clay in it.	
table	rows and columns for facts	This row says brick: made.	

Look at the model

People shape and fire natural clay to make a brick. Simplified; not to scale.

How I know

I can sort one raw item.

I can sort one made item.

I can add a row to a table.

Say first: I put ____ in the table as ____.

You can plan in any language.
