Show what we know about bodies and rocks

I am learning to show a fact about bodies, food and rocks.

Words

Word	It means	Example	My language
skeleton	bones that help hold a body up	I point to the bone model.	
nutrition	what a body gets from food to grow and stay well	An animal gets nutrition from food.	
rock	a solid thing from the ground	I can test a safe rock.	
evidence	what you saw or did that helps show a claim	My rock sort shows my rule.	

Look at the model

Point to the skeleton, food and rock you studied. These pictures stand for ideas, not a new test result. Simplified; not to scale.

How I know

- I can show one fact.
- I can show what I used to find it.
- I can name one next step.
- Say first: I know ____ as I saw ____.
- You can plan in any language.
