

Forces, space and climate questions

Today I can... ☐ I can match a question to a model. ☐ I can give a claim with a matching clue. ☐ I can say one thing the model cannot show.

Feedback: ☐ VF ☐ WS ☐ I ☐ NS ☐ E ☐ R _____

Arrival

Match each question to a kit card: toy and surface, globe and torch, or warming chain.

My response

Starter

Think back. Say, point or write one answer for each question.

1. Give one link in the warming chain.

2. Name one fact our Solar System cards support.

3. How can friction affect a moving toy?

Forces, space and climate questions

Today I can... ☐ I can match a question to a model. ☐ I can give a claim with a matching clue. ☐ I can say one thing the model cannot show.

Talk-then-sort

Torch and ball are chosen for day and night. Add the missing clue. Say why it fits.

Day and night question → choose torch and ball → observe ____ → explain Earth's turn.

Choices: toy and surface · torch and ball · warming cards

Card or step	My group or match
Why did the toy slow?	
Why is a place in night?	
Why is climate warming?	

Choose two stations. Give a claim and matching clue for each. Name one limit.

Independent F

Match a question to a model.

For ____, I choose the ____ model.

My response

Independent M

Give an answer and a matching clue.

My claim is ____; the clue is ____.

My response

Forces, space and climate questions

Today I can... ☐ I can match a question to a model. ☐ I can give a claim with a matching clue. ☐ I can say one thing the model cannot show.

Feedback: ☐ VF ☐ WS ☐ I ☐ NS ☐ E ☐ R _____

Independent H

Compare two models, clues and limits.

The ____ model fits because ____, but it cannot show ____.

My response

Go deeper

Compare two models: what can each show and miss?

My response

Two toy runs differ on one surface. Can friction alone explain this? Choose one control that would help.

My response

Exit

Name a model, claim and clue. Say what changed after feedback.

My exit response

? Read it back: choose a model that fits a science question and use a matching clue.

My feedback was... say what changed. Next I need to... name a fix.

Word help

Word	Meaning	Example	My language
force	a push or pull on an object	Friction is a force that can slow a toy.	
rotation	a turn around an axis	Earth's rotation brings day and night.	
evidence	an observation or result that supports a claim	The shorter run is evidence for my answer.	
climate	weather patterns over many years	A hot day alone does not show a climate trend.
