Staff answers and cover notes

Exact lesson outcomes

Practise help-seeking and decision-making in scenarios.

Relationships & citizenship task; bank evidence.

Meaning

A decision is a choice about what to do. A safe choice respects people and avoids adding harm. Help-seeking means asking a trusted adult for support. A person can ask when unsure and does not need proof first.

Decide

Think about a safe choice and why it fits. A trusted adult can help make the choice.

Act

Choose a safe step, phrase or request. A pause or asking an adult is an action too. No one must confront a person or solve harm alone.

Tell

Ask a trusted adult or school staff in private when help is needed. Say what the concern is and ask what will happen next. If help is not enough, ask another trusted adult.

Decide, act and tell are prompts, not a fixed order. If unsafe or unsure, tell a trusted adult first. There is no need to try a phrase, resolve a problem or collect proof before help. Staff use the safeguarding lead through school procedure.

Two equal response formats

Choose a response format, not one scene. Both formats cover all three scenes: a safe choice with a reason, a safe action or phrase, and a trusted-adult help route. When unsafe or unsure, telling first is always valid. Both formats use the same checks and ordinary aids. A map needs no art skill. Notes need no extra length.

Source and calendar

Owner calendar decision: Spring 2 has five teaching weeks, Monday 22 February to Thursday 25 March 2027. The source labels row 74 Spr2·W5 and row 75 Spr2·W6. The owner combines both exact row outcomes into one assessing lesson on Wednesday 24 March 2027 P3, Week 5. Row 75 is not treated as a sixth teaching week and no Week 6 lesson is built.

Fictional answers and checks

A A turn with a shared card shape

A fair turn plan can let both use the shape. I would like us to agree a turn. They could listen and use a swap cue, or ask staff to help. Ask trusted school staff for help if they cannot agree or feel unsure. Can we talk in private? We need help with a fair turn plan. Reason: A clear plan respects both views. The learner need not give in or argue to be heard. Accept other fitting safe choices, phrases and adult routes.

B A request to share a photo

Pause before sharing. Check permission and private details with trusted adult help. No. I will ask first. They can stop replying and ask a trusted adult before any share. They do not copy or forward private or harmful content as proof. Tell a trusted adult or school staff privately if unsure or pressured. Ask for help with a safe report or block route if needed. Reason: A group request does not make sharing right. Private settings cannot stop every copy. Accept other fitting safe choices, phrases and adult routes.

C A fair way to join the group task

Choose a fair way for each learner to be heard and use usual access. Can we hear each idea? I would like a fair way for each person to take part. The group can ask staff to help plan options. Ask a trusted adult or school staff if someone is left out or the plan still does not feel fair. Can you help us find a way for each person to take part? Reason: Respect includes listening and helping people take part. A shared rule does not make unfair treatment right. Accept other fitting safe choices, phrases and adult routes.

Main and parallel hinge

Main B. A makes the prompts a fixed order. C wrongly requires proof. D accepts secrecy. Re-model then use parallel A: ask another trusted adult through the agreed route. A pass is unobserved; check privately in the usual mode.

Misconceptions

Help can come before deciding or acting. The pupil need not confront a person, try a phrase or gather proof. A group request does not grant permission to share. Fair participation includes usual aids and hearing each learner. No one must solve harm alone.

Assessment and safe delivery

Six outcome judgement

This is the assessing week. The six-outcome tick-and-comment grid starts blank and spans rows 70 to 75 across five teaching weeks. Use Week 5a and Week 5b for the two final outcomes. Record actual current or prior work references, context, usual access and content prompts. Tick observed, more learning needed or not observed honestly, and explain gaps or the next chance. A pass is not observed. One fictional task cannot prove every outcome or lasting behaviour. The grid is not criteria for the unit award. Staff check actual requirements and evidence sufficiency before offering evidence. No automatic banking or award follows from completion.

Actual evidence

Use the grid for actual current or prior work. Add work references, context and what the evidence shows. Note usual aids separately from content cues. Missing evidence remains missing. A polished product does not prove every outcome, personal wellbeing, future behaviour or real account safety.

Review and exit

Keep the first response. Give one clear NS and retain the actual reply. Accept a safe help route or correction of the proof-first myth. The self-check is about learning only.

Feedback

Retain actual fictional work and the first response. Record usual access separately from adult content prompts. Give one NS and allow an actual reply in the learner's own colour or usual mode. E only for actual saved evidence. R only after Voice, Audience, one NS and the actual pupil response. Offer to the Communication portfolio; staff confirm mapping. Do not collect personal cards or real concerns in learning records.

Private response

All tasks use invented third-person scenes. No real relationship, health, family, account, password or incident is requested. Pass and the agreed pause are valid. Any optional personal card stays with the pupil and is not collected, photographed, displayed or compared. Only fictional learning is kept as evidence.

Private help

Ask a trusted adult or school staff privately. Say Can we talk in private? I need help with a choice or concern. Use words, a note, HELP or a usual aid. If the first adult is busy or help is not enough, ask another trusted adult. For an urgent safety concern, get adult help at once through the school route.

Discreet step out

Before teaching, agree a discreet HELP or PAUSE signal, available adult and familiar supervised place and route. Staff acknowledge it quietly and keep adult support. No public reason is needed. Offer a neutral task, supported return or private catch-up. No learner leaves alone.

Safeguarding

Any disclosure goes to the safeguarding lead through school procedure. Listen calmly, reassure, do not probe, investigate or promise secrecy. Follow urgent school procedures for immediate concerns. Keep real concerns and identifying details in the separate safeguarding record, not learning evidence. A pupil unable to identify a trusted adult is supported privately, not pressed.
