Tier pack: Independent route — The local canvas: shapes and textures

Pathway: BASE · Week 1 Part 2 · Big question: What bold shapes and rough marks can we spot in big frames?

Independent route studio steps

Step 1: Make three new wax rubbings on one sheet of paper.

Step 2: Look at a bridge card. Find the main arch and triangles.

Step 3: Draw the arch. Cross bars over your rubbings in black pen.

Step 4: Write one word by each rubbing (rough, ridged, or mesh).

Success check

Three rubbings joined with a bold frame drawing. Words.

Key words helper

- beam: A long straight bar that holds up a frame.
- arch: A curved shape that goes across a gap.
- rough: Bumpy to touch, not flat or smooth.
- rubbing: Marks made by pressing wax over a bumpy card.
- edge: The outside line where a shape stops.

Review checklist

[ ] Touch your page. Point to the best rough mark set.

[ ] Check that your black bar lines meet at the corners.

[ ] Show a partner one triangle or arch on your sheet.
