Tier pack: Independent route — Deliver the skill share and curate the display

Pathway: TRACK · Week 7 Part 2 · Big question: How do we deliver a clear tabletop studio demonstration and curate our architectural panels as a cohesive exhibition?

Independent route studio steps

Step 1: Host your 90-second skill demonstration during the table carousel using your three-stage exemplar board.

Step 2: Visit two peer stations, test or inspect their sample tiles, and leave specific technical feedback slips.

Step 3: Write a full museum label and collaborate with your table team to align your relief panels along the gallery sightline.

Step 4: Complete your final Studio suite Evaluation reflecting on both your panel resolution and your demonstration.

Success check

Carousel demo delivered, two peer reviews written, panel curated on sightline, and evaluation completed.

Key words helper

• skill share: A short practical demonstration where you teach a studio method to peers.

• sightline: The horizontal eye-level line that connects a row of hung artworks cleanly.

• museum label: A formal card beside an exhibited piece listing Title, Medium, Scale, and Maker's Note.

• cohesive: Looking unified and thoughtfully grouped as one whole exhibition.

• evaluation: Reviewing what worked well in your demonstration and final artwork.

Review checklist

[ ] Stand back with the class to view the complete architectural relief exhibition along the wall.

[ ] Collect the peer feedback slips left at your demo station and attach them to your studio log.

[ ] Ensure your museum label and evaluation sheet are complete.
