Tier pack: Aspire route — Refining technique through structured critique

Pathway: SUMMIT · Week 4 Part 1 · Big question: How do we use criteria-led critique to test material refinements and resolve our final identity outcome?

Aspire route studio steps

Step 1: Audit your work across all four criteria and formulate two alternative material solutions for your focal transition.

Step 2: Execute two comparative 6 cm swatches, select the superior solution, and resolve the final artwork to exhibition standard.

Step 3: Write a rigorous critical synthesis tracing how your Week 1 audit, Week 2 deliberate practice, and Week 3 practitioner analysis converged in the final work.

Success check

Dual comparative swatches, exhibition-grade resolution, and critical synthesis across Weeks 1-4.

Make-it studio planner

Lock in your criteria diagnostic, swatch test, and final resolution.

Options: Diagnostic: Boost figure-ground, Diagnostic: Widen 5-value range, Diagnostic: Varied contour weight, Diagnostic:
