Tier pack: Aspire route — Planning a gallery or exhibition inquiry

Pathway: SUMMIT · Week 5 Part 1 · Big question: How do we design a structured visual inquiry plan to analyse artworks in an exhibition space?

Aspire route studio steps

Step 1: Architect an advanced comparative Inquiry protocol designed to evaluate two contrasting works in dialogue (juxtaposition).

Step 2: Integrate a 5-point curatorial evaluation rubric measuring spatial sightlines, lighting drama, and material integrity.

Step 3: Execute a dual pilot thumbnail and write a methodological note explaining your observational strategy for Week 6.

Success check

Comparative dual-work inquiry protocol, curatorial rubric, and pilot thumbnail completed.

Make-it studio planner

Assemble your Gallery inquiry framework and critical lenses.

Options: Zone 1: Sightline & lighting map, Zone 2: 5-value tonal thumbnail, Zone 3: Surface & joinery close-up, Zone 4:

Comparative dialogue

Review checklist

[ ] Check that all four recording zones and your three inquiry questions are clearly laid out on your sheet.

[ ] Verify that your pilot thumbnail shows at least three distinct tonal values.

[ ] Store your prepared clipboard sheet safely for next week's exhibition session.
