Teacher and cover plan — Delivering the workshop and curating the exhibition

Pathway: SUMMIT · Week 7 Part 2 · Big question: How do we facilitate our live peer studio workshop and curate the collective structural installation?

Learning goals and studio kit

• Deliver your adapted 10-minute studio workshop to a small group, coaching participants through your 3-stage exemplar sequence.

• Collaborate as a curatorial team to install the finished structural relief panels and workshop tiles under directional raking light.

• Complete a summative Leadership & Curation evaluation assessing your facilitation, instructional adaptations, and exhibition impact.

Studio kit: Finished structural relief panels, upgraded Workshop leadership Boards, participant blank kits, directional gallery lamps, museum labels, evaluation sheets

Arrival and starter

Arrival: Today brings our entire seven-week Studio suite together: facilitating your adapted peer workshop AND curating the collective structural installation. What makes a studio leader shine during live delivery?

Starter question: When curating our major relief panels alongside the smaller tiles made in today's workshops, how can we arrange them so the display looks architectural and unified?

Teacher model (I do)

Step 1: Facilitate the live studio workshop: I welcome my visiting group, deliver my 30-second safety check, and coach them through Steps 1, 2, and 3 using my upgraded Week 6 board.

Step 2: Curate the panel and workshop cluster under raking light: I hang my main structural relief panel on the sightline, mount the visitors' finished tiles beside my museum label, and angle the raking lamp at 25 degrees.

Step 3: Complete the Summative evaluation: I attach my visitors' feedback slips to my portfolio and write my final evaluation analysing both my structural resolution and leadership growth.

Practice routes (Supported / Independent / Aspire)

Supported: Workshop delivered, relief panel and participant tiles displayed, and evaluation sheet completed.

Independent: Live workshop facilitated, participant feedback collected, panel curated under raking light, and summative evaluation written.

Aspire: Masterclass delivered, installation zone directed with wall statement, and analytical retrospective written.

TA and cover notes

TA focus: Organise a two-round carousel (6 mins Round A leaders, 6 mins Round B leaders) followed by a 10-minute collective gallery hang and lamp-angling ceremony.

Staff prep: Staff preparation only: review how to coordinate the final studio workshop carousel and collective raking-light exhibition hang.
