Body Needs · Staff Answers

Learning goal: I can say how animals get food and match food to three jobs in the body.

Arrival Answers

1. No. Humans must eat food.
2. A green plant.
3. We need water.
4. Yes. You can ask or pass.

Starter & Hinge Answers

Starter: A. Animals cannot make food from light; they eat food for energy, growth, and health.

Hinge: A. Grow and mend foods build and repair muscles, bones, and skin.

Evidence Desk Cards

Porridge oats before a walk: Go (energy): oats give steady fuel to move and walk.

Eggs and beans after sport: Grow and mend: eggs and beans help build and mend muscle.

Apple and carrot sticks: Keep well: fruit and veg help the body stay healthy.

Glass of tap water: Keep well and hydrated: water replaces fluid we lose.

Making food from sunlight: Plants only: animals cannot make food from sunlight.

Rice and potatoes at lunch: Go (energy): rice and

potatoes give fuel for the afternoon.

Check & Repair Answer

Only plants make food from light. Animals must eat food and drink water.

Exit Ticket Answers

1. A dog (all animals must eat). 2. Gives energy to move, helps us grow and mend, or keeps us well. 3. Food provides fuel and building blocks, and water keeps our body fluids working.
