Fair Test · Word Page

Learning goal: I can plan a fair test by naming what to change, what to measure, and what to keep the same.

Words for This Lesson

independent variable: the one factor we change on purpose in a fair test

dependent variable: the factor we measure to see the effect of our change

control variable: a factor we keep the same so the test is fair

fair test: an investigation where only one factor is changed while all others are kept constant

How to Use These Words

Point to a word when you explain your idea.

Help: We will change __, measure __ in __, and keep __, __, and __ the same. I predict the largest canopy will take the longest time because __.
