Plan the day out P6

Thursday 12 November 2026 | 12:50–14:10 | Year A

White paper version | Same task and finish | Point, speak, draw, write or use a scribe.

P6 | Supported | Team ____ | My code ____

PRACTICE COSTS ONLY. Ten pupils and four adults. No quote or payment. Use the cost cards. Owner handwritten venue name: _____.

1 Use the common total £364. Choose a practice transport card with an adult. Add its return cost.

2 Find 10% by dividing that total by 10. Add this extra amount. Use a calculator or ask for one step at a time.

3 Divide the plan total by 10 pupil places. Say or point to your cost and a reason for the team choice.

Common cost: pupil entry £150 + adult entry £80 + lunch/drink £84 + pupil shop reserve £50 = £364.

Return transport: existing minibus £150; hired minibus £450; hired coach £650. Owner must check capacity, access, drivers and all costs.

My check: £364 + transport £____ = £____.
10% contingency £____. Plan total £____.
Divide by 10 pupil places = £____ each. This is a cost share, not a charge to families.

Shop: up to £5 per pupil. Buying nothing is valid. Spend £____; money left £____. Adult shopping is outside this model.

Finish

Give one checked cost and one team budget line: “We choose ____ because ____. Total £____, or £____ per pupil place. We still need to check ____.” Show, say or share quietly. Keep your own calculation even if you visit station D.

P6 | Independent | Team ____ | My code ____

PRACTICE ALLOWANCES ONLY. Ten pupils and four adults. No quote or payment. Use the cost cards. Owner handwritten venue name: _____.

1 Check the common subtotal on the cost card. Compare at least two return transport allowances.

2 Add transport to £364, then add 10% contingency. Divide the final planning total by 10 pupil places.

3 Check a partner's sum. Give a reason for the choice and name an owner check still needed.

Common cost: pupil entry £150 + adult entry £80 + lunch/drink £84 + pupil shop reserve £50 = £364.

Return transport: existing minibus £150; hired minibus £450; hired coach £650. Owner must check capacity, access, drivers and all costs.

My check: £364 + transport £____ = £____.
10% contingency £____. Planning total £____.
Divide by 10 pupil places = £____ each. This is a cost allocation, not a charge to families.

Shop: up to £5 per pupil. Buying nothing is valid. Spend £____; money left £____. Adult shopping is outside this model.

Finish

Give one checked cost and one team budget line: "We choose ____ because ____. Total £____, or £____ per pupil place. We still need to check ____." Show, say or share quietly. Keep your own calculation even if you visit station D.

P6 | Aspire | Team ____ | My code ____

PRACTICE ALLOWANCES ONLY. Ten pupils and four adults. No quote or payment. Use the cost cards. Owner handwritten venue name: _____.

1 Compare all three return transport allowances. Check the £364 common cost and 10% contingency.

2 Calculate cost per pupil place using 10. Compare cost per traveller using 14 and explain why the answers differ.

3 Test a no-purchase budget by removing the £50 reserve before contingency. Explain a useful trade-off and an unconfirmed cost.

Common cost: pupil entry £150 + adult entry £80 + lunch/drink £84 + pupil shop reserve £50 = £364.

Return transport: existing minibus £150; hired minibus £450; hired coach £650. Owner must check capacity, access, drivers and all costs.

My check: £364 + transport £____ = £____.
10% contingency £____. Planning total £____.
Divide by 10 pupil places = £____ each. This is a cost allocation, not a charge to families.

Shop: up to £5 per pupil. Buying nothing is valid. Spend £____; money left £____. Adult shopping is outside this model.
